Conditions of Sale

The following special conditions apply to this sale where applicable:

FEMALE GUARANTEES:

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.
This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
3. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale.
4. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2019, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2019, the seller shall refund in full the purchase price direct to the buyer.
7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

MALE GUARANTEES:

The entry of any bull in this catalogue constitutes a guarantee by the seller that the purchase price without interest, expenses, costs or damages shall be refunded if a bull proves either totally incapable of service or totally infertile. If any bull does not possess reasonable fertility, although is not totally infertile, is the subject of dispute, then this shall be settled by an arbitrator appointed by the auctioneers.

Any complaint must be lodged with the auctioneers by the 30 November 2018. The cost of taking delivery and returning the bull to the seller is to be borne by the buyer. A veterinary surgeon's Certificate shall be produced by the buyer to support all claims and the costs associated with this shall be borne by the buyer.

GENERAL CONDITIONS:

DELIVERY: Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

INSURANCE: If transit or annual insurance is required, such cover can be arranged through the auctioneers.

INSTRUCTIONS: Buyers must sign dockets before leaving the sale and leave full delivery instructions.

TRANSFERS: Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Transfer Certificate.

CATTLE FOR EXPORT: All stock sold for export are to be inspected by Official Inspectors of the Breed Society concerned prior to Export Certificates being granted for such stock. The seller is responsible for the 15% commission payable on all cattle sold for export.

PAYMENT TERMS: Payment 12 days after date of sale.

Welcome

The first animal registered under the Beledene prefix was *Beledene Jenny's Lass*, born on 23/8/1949. The last animal registered under the Beledene prefix is *Beledene Idaho Superior*, Lot 215, born on 9/11/2017.

Arthur & Peggy Revell

“This farm was purchased in 1927, when Dad had the stud pigs. He had about 10 – 12 breeding sows, Berkshire initially, and then he also added some Tamworths in later years. Donald was more involved with the pigs than I was. Dad milked a grade herd of Jerseys and thought if you were going to milk good cows you may as well milk stud ones, so that’s when we started in the registered game in 1949. Our first choice for a prefix was Belmont (because we had Belmont pigs), but that name had already been taken. So *Beledene*, which actually was our third choice, was the one that came to be.”

There was a tremendous concentration of the blood of *Dunlavin Excellency* (pg 8) in the early breeding programme at Beledene and also the blood of the great cow, *Kevilor Sameen* (pg 8) The Excellency blood was mainly through his double grandson, *Glenmore Attainment*, who

is the sire of *Big Hollow Magic Omen* (Lot A); and also through a double granddaughter, *Glenmore Golden Folly*, who is the dam of *Big Hollow Folly's Sultan*, Lot B.

The Sameen blood came initially through her son *Big Hollow Dreaming Major*, but in later years, when Beledene added *Lamorna Roz Duke* to the mix, the Sameen blood came through another son, *Big Hollow Blue Sam*, via *Lamorna Blue Dream*. These bloodlines were then further intensified with the bulls, *Grandee*, *Duke's Lord* and *Revel's Grant*.

The Dunlavin Excellency blood was also very dominant in the Beledene foundation females, particularly Marie, Sylvia and Irene. *Pines Merry Peggy* and *Pinewoods Merry Irene* were two of the best of the early cows that Beledene purchased along with *Pines Royal Marie*. Peggy and Irene were both sired by *Merriland Concentration* and a 3rd daughter was *Beledene Royal Pet*, the calf that Marie was carrying when they bought her. *Concentration* could have been a great bull – unfortunately he was killed at an early age when he was electrocuted by power lines in a Taranaki storm. He had a very intense pedigree.

“We bought a lot of good cows from Pinewoods which was Roy Bell’s stud at the seaside town of Oakura. There’s an orchard there now I think where the Pinewoods stud was, just on the edge of the town. All the Pinewoods cows were bought through the combined breeders sale at Waiwakaiho. Donald and I both left school at 15 and came home on the farm and have been here ever since.

“Dad could really put animals together. He taught me how to read a pedigree. He said if you haven’t got the right animals in the 3rd and 4th generations, then you are not going to get them in the first generation, so I’ve always looked back in the pedigree.

A good example of this is *Beledene Duke's Lord*. We have a photo of *Golden Fern's Noble* and although we have the left

Beledene Dukes Lord (1988)

Golden Ferns Noble (1909)

side of *Noble* and the right side of *Duke's Lord*, those bulls are almost identical, although 80 years separate those two bulls. At the last count, *Duke's Lord* has over 380 strains of *Fern's Noble* in his pedigree, so an animal can only be as good as their ancestors, and duplicating those superior animals in a pedigree can only enhance your chances of success.

Dad had an old friend in Normanby called Don Stewart. He was an all breeds judge. He could judge birds, sheep, cattle, pigs, horses and was a great stalwart of stud animals. Dad used to go and chat with him a lot, and pick up ideas from him.

“Dad loved milking. He milked until about 6 weeks before he died, and he died at 95. In the end his heart wore out. He always said he'd like to wear out, not rust out. That was his motto.

“We know an old breeder that was an Australian - Murray Maloney was his name I think – he told us 50 years ago, that you'll never go broke feeding good cows. We've run a financially profitable operation for many years and it has been based on good cow families and feeding them well. Index hasn't ever been a guide for us – just good strong cow families and choosing bulls from the best cows of those good families. We have always averaged over 400 kgs milksolids and more often than not we get up around 450 kgs. The farm is 80 hectares (200 acres) and we are

carrying approximately 350 animals on the farm, so our stocking rate is very high.

As for our greatest cows, *Noble Lydia* would be one and her daughter, *Duke's Libby* and certainly *Starlee*, now, is one of those ones that are going to be terribly hard to part with. *Grant's Inallia* is another one. They just did everything right, they never put a foot wrong in their whole lives. *Lord's Salvia* was another one of my favourites. We know we have been blessed with some truly great cows in our time and it's been a pleasure and privilege to work with them. And we've also lost some great ones as young cows and that's a terrible experience, but that's life, isn't it. Losing *Mons Levina* when we did was really tough, because at the time we considered her to be the star of the herd. But a couple of years later, *Starlee* calved in and we were away again. With *Marnie* and *Starlee*, we are very fortunate to have two good cows to finish our life with Jerseys and I just hope they go to people who will care for them.

Yours Sincerely
THE REVELL FAMILY

to Beledene

All stock registered under the BELEDENE prefix have been saturated with the blood of these two famous NZ Jerseys.

Dunlavin Excellency (1944)

“**Dunlavin Excellency** is quite possibly the greatest bull born in New Zealand to date in Jersey history.”
“**Cow of the Century** (awarded 2002); **Kevilor Sameen**, VHC, CP, SD, was deemed to be the cow that has had the greatest influence for the good of the breed in New Zealand over the last 100 years.”

A TRIBUTE TO THE QUEEN OF BELEDENE

Beledene Noble Lydia

When asked the question of the best cows of Beledene, the immediate answer that came from Malcolm Revell was **BELEDENE NOBLE LYDIA**.

Born in 1985, Noble Lydia had a classical pedigree and her first calf was Beledene Ace's Lydia, who became a magnificent brood cow. Her second calf was Beledene Duke's Lord, (Lot D), who was sired by Lamorna Roz Duke. This mating was repeated 11 more times, of which one of them was Beledene Duke's Libby, a tremendous type, production and show cow. Five more full sisters were born, all producing records over 350 kgs fat.

Lydia's influence at Beledene can be viewed through her family tree on pages 38 and 39.

She was laid to rest in 2006 at the age of 21, a few months after her son, Duke's Lord died at age 18.

From 1949 - 2018, the Revell family believe Lydia's influence has been unsurpassed and she has rightly earned the title of the **'QUEEN OF BELEDENE'**.

The Jersey Cow

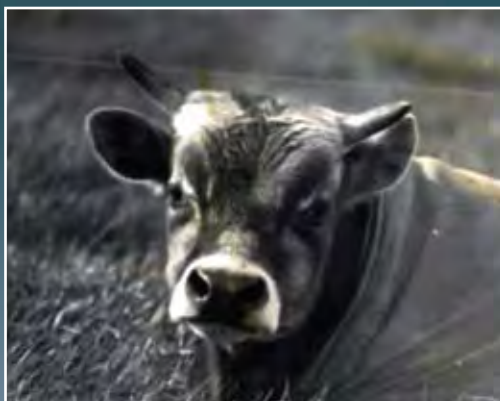

THE GREATEST GIFT

THE GREAT *Sires* OF BELEDENE

The foundation females purchased by Beledene in the 1950s and 1960s were all from good solid cow families. However it was the strategic use of the bulls in the following pages that took those good foundation cows and turned them into great cow families.

Jack Baker's insistence that Beledene purchase BIG HOLLOW MAGIC OMEN, Lot A, started the ball rolling, and once that ball got rolling, BIG HOLLOW FOLLY'S SULTAN added more momentum.

Then came FAIRWAY NOBLE GRANDEE, followed by his grandson, BELEDENE DUKE'S LORD. BROOKVALE REVEL'S GRANT added even more momentum, and then the homebred bulls, *Beledene Top Lad, Beledene Supreme Imperial, Beledene Summer Leader and Beledene Dels Montana.*

Fairway Noble Grandee

The Omen, Sultan and Grandee bulls were the best bloodlines available in New Zealand at the time, and Beledene was not afraid to make a substantial financial investment to get access to these special bulls.

It should also be noted that several other bulls have contributed significantly to Beledene, although room has not allowed us to provide a reference page for each and every one of them.

In chronological order, these bulls include,

PINEWOODS GOLD ONYX,

PINEWOODS ROYAL SON,

KAKARIKI DESIGN'S DIGNITY,

KAKARIKI SULTAN'S FORTUNE,

LAMORNA ROZ DUKE (*an outstanding bull*),

GRANDEUR GOOD OMEN,

FERDON TANDRAS ENSIGN,

BELEDENE GRAND METEOR,

CARNMOR BELS PRESTIGE,

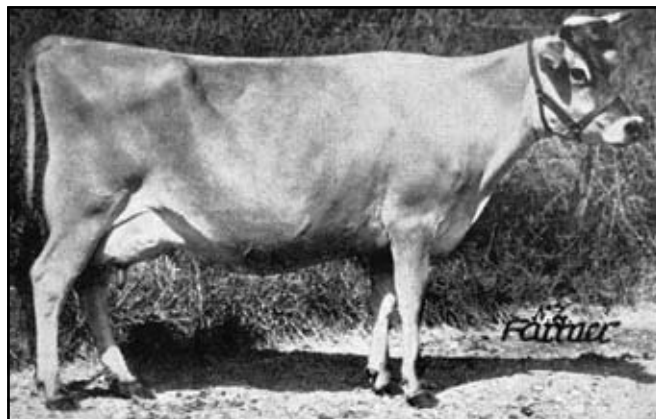

KERERU GRANT'S DREAM BOY

GOLDEN OAK LEE'S MAYJOR.

Beledene purchased Fairway Noble Grandee for \$14,500 in July 1979. This was the highest price Beledene paid for any of their foundation animals. He turned out to be a wonderful investment. This photo of Noble Grandee was taken a couple of weeks after Beledene had purchased him.

We purchased Magic Omen as a 6yr old proven bull from Keith Taylor (Forest Glen stud) at Taupiri for about 700 guineas. Jack Baker was responsible for getting us interested in him. Magic Omen was really before AI became popular, and we preferred to buy an older proven bull rather than a younger unproven one. He was a great bull to serve and we were able to even get yearling heifers mated to him, because he was such a gentle bull. Omen lived in our bull paddock next to the house and used to rub his back on the clothes line, but never dirtied the clothes. Omen definitely lifted the milk weights. They were real dairy cattle. They were big cows and lifted the size and capacity of our cows. He mated well over the Pinewoods bloodlines that our female families came from. Omen looked very much like his sire Glenmore Attainment, and we really liked the performance of the Dunlavin Excellency offspring and their influence.

BIG HOLLOW OMEN'S MAID
Dam of Magic Omen

SIRE:

GLENMORE ATTAINMENT

Merit Sire. Undoubtedly one of the best breeding bulls in New Zealand in the 1950s and 1960s. Purchased by Big Hollow in 1954 for 1650 gns and then resold in 1961 to the Whariti stud for 1350 gns. All his daughters at Big Hollow carried the middle name 'Choice'. Sire of 3 Exc, 73 VHC and 19 Merit Sire sons. A bull intensely bred to Dunlavin Excellency. One of his best daughters was Big Hollow Choice Brownie, Exc CP, SD, who was the dam of Big Hollow Brownie's Comet, a bull that bred exceptionally well in the Lamorna stud.

GLENMORE LORD CHANCELLOR

Merit Sire. 38 VHC dtrs and 23 Merit Sire sons. Full brother to 2 magnificent breeding cows, Glenmore Graceful, VHC CP, SD, Elite Merit, whose progeny include Glenmore Royal Diplomat, senior herd sire at Tarnhowe and Glenmore Elegant Lady, VHC CP, SD Elite Merit, whose progeny include Glenmore Progressive, senior herd sire at Rockvale.

GLENMORE GIPSY GIRL
VHC CP, SD, Elite Merit

Records of 540, 579, 611, 567, and 760 lbs fat. A great breeding cow at Glenmore. Winner of the 1952 Golden Jubilee championship among many other awards. Gipsy Girl was the most famous of the many great dtrs of Dunlavin Excellency. Her dtrs include Glenmore Gyptian Girl, whose son Glenmore Integrity was senior herd sire at Brookvale; Glenmore Geisha Girl, VHC CP, SD, whose son Glenmore Revelation was senior herd sire at Fairway; and Glenmore Cupid Girl, Exc., whose dtr Ferdon Gypsy Girl was the dam of Ferdon Attainment.

ABBEVILLE GOOD OMEN

Merit Sire. His daughters were outstanding brood cows. Doubly bred to the great Brampton Dreaming Sam. His dam and his sire's sire were ¾ siblings. Two of his greatest daughters were the full sisters Big Hollow Omen's Belle and Omen's Beauty, VHC CP, SD, Elite Merit and winner of 15 championships. However, probably his greatest daughter was Kevilor Sameen, VHC CP, SD, Elite Merit, who in 2002, was voted most influential breeding cow of the century at the NZ Jersey Breeders Centenary.

BIG HOLLOW MELITA - VHC CP, SD Merit

Records of 427, 413, and 401 lbs fat. Dam of 2 Merit Sire Sons. Also dam of Big Hollow Royal Marie, VHC, CP, SD, Elite Merit, who was the dam of the terrific full sisters Big Hollow Golden Marie, VHC CP, SD, Merit; and Golden Merry, also VHC Merit. Golden Merry was the dam of the Australasian record priced Big Hollow Design's Meteor, sold for \$16,200 in 1969. Melita's grandsires, Croydon Soumise Emperor and Croydon Soumise General, were ¾ siblings.

DUNLAVIN EXCELLENCY

Arguably New Zealand's greatest homebred Jersey bull. Excellency had a magnificent pedigree and his progeny performed likewise. His sons and daughters founded outstanding families in many of NZ's most prominent studs such as Big Hollow, Madeley Park, Merriland, Mount Cosy, Primley and Tarnhowe to name a few.

GLENMORE FLASHLIGHT LADY
VHC CP, SD

Sired by Glenmore Flashlight and her dam was Glenmore Scarlet Lady. She was linebred to Beechlands Combine in the 3rd generation. Her matings with Dunlavin Excellency worked perfectly and their influence spread far and wide through NZ Jerseys.

DUNLAVIN EXCELLENCY

Arguably New Zealand's greatest homebred Jersey bull. Excellency had a magnificent pedigree and his progeny performed likewise. His sons and daughters founded outstanding families in many of NZ's most prominent studs such as Big Hollow, Madeley Park, Merriland, Mount Cosy, Primley and Tarnhowe to name a few.

GLAN DWR NOBLE GIPSY MAID – VHC CP, SD Elite Merit

Records up to 544 lbs fat at 7 years. A magnificent breeding cow with a magnificent pedigree who was very intensely bred to Glenmore Noble Maid and her sire Viola's Noble of Glenmore. Her son Cedar Lodge Golden Noble (a full brother to Gipsy Girl) was used strategically at Glenmore and was very influential.

RAEBURN BLUE PETER

His sire was Meon Omen and his dam was Raeburn Bluebell.

MEON MISTLETOE

Dam of Abbeville Sleeping Sam, a successful sire in the Beechlands stud. Her dam is Meon Enid. Her sire is Brampton Dreaming Sam, one of the greatest bulls in the history of the Jersey breed. Dreaming Sam could be described as the grandfather of NZ Jerseys.

BIG HOLLOW BANJO

Full brother to the successful breeding bulls, Big Hollow Soumise Noble and Big Hollow Bronze King. Banjo is also the full brother to Big Hollow Soumise Beauty, who is the dam of the great full sisters, Big Hollow Omen's Belle, VHC CP, Elite Merit and Omen's Beauty, VHC CP, SD, Elite Merit and winner of 15 championships.

BIG HOLLOW SOUMISE MELBA
VHC CP, SD, Elite Merit

Dam of Big Hollow Masterpiece and Big Hollow Merry Baxter, both Merit Sires. Her dam was Big Hollow Midget.

DAM:

BIG HOLLOW OMEN'S MAID - VHC CP, SD Elite Merit 1000 gallons (3rd Gen VHC, CP, SD)

BELEDENE SULTAN'S SHELLY
Daughter of Folly's Sultan

We did not own Folly's Sultan – we used him through AB. We had a chance to buy him as an old bull, but he was too old for active service. He just seemed to work so well over the Big Hollow Magic Omen daughters. Folly's Sultan was used fairly widely throughout New Zealand and his strike rate for siring great ones was extremely high. Some of the best show animals that have been bred in New Zealand were sired by Sultan – Lilac Grove Sultan's Ring and Hasty River Sultan's Robyn are two that spring to mind. We had a fantastic daughter, Beledene Sultan's Shelly, who had a magnificent udder. Shelly got Supreme Champion All Breeds at Egmont as a 2yr old, but she got injured with a spinal injury as a young 3yr old. Sultan left great capacity and size just like Magic Omen, yet he added even greater udders than we already had. His daughters bred on tremendously well for us. We couldn't speak too highly of the Sultan's. Once again, like Magic Omen, one of his parents was doubly bred to the Dunlavin Excellency bull.

BIG HOLLOW DREAMING MAJOR

Merit Sire. 6 Exc and 47 VHC dtrs. Considered by many to be one of NZ's greatest breeding sires. Dreaming Major had 4 Merit Sire brothers. His own progeny included Big Hollow Folly's Major and Folly's Design, both ¼ siblings to Big Hollow Folly's Sultan. Some of Major's best dtrs include Big Hollow Easter Daisy, Exc Merit, and Big Hollow Dinah Lee, whose son Merriland Lee's Nugget was senior herd sire at the Golden Oak stud.

BIG HOLLOW BILBERRY - VHC CP Merit

Records of 394, 471, 457 and 444 lbs fat. Champion Cow at Northern Wairoa Show 1961. Full sister to Big Hollow Bestman, senior herd sire at the Rolanvale stud; Big Hollow Brocade, the dam of 2 Exc full sisters, Big Hollow Stylish Betsy and Stylish Betty, Exc SD.

GLENMORE ROYAL VAGABOND

Merit Sire. Sire of 96 VHC dtrs, a NZ record at the time. Also sire of 63 Merit Sire sons. His full sister, Glenmore Lady Sylvia, VHC SD, is the 4th dam of the great Ferdon Glens Vickie, Exc. Vagabond was initially used at Glenmore and then sold to Brookdale as a mature bull where he sired many great cows, including Brookdale Odette, VHC SD, Supreme Champion All Breeds Stratford 1955. Another daughter, Brookdale Celia, Exc CP, SD, is the 4th dam of Glanton Red Dante, voted 'Sire of the Century' at the Jersey NZ's 2002 centenary. Red Dante's 2nd dam had 5 strains of Vagabond in her 1st 4 generations. Vagabond's influence worldwide probably is strongest through his son Glenmore Royal Guide, whose semen was exported to Denmark, and made dramatic improvements to Danish jerseys, which is still evident today. Royal Vagabond's influence has been colossal in the Jersey world.

GLENMORE FLORENCE – HC CP

Records to 325 lbs fat at 3 years. Florence lost one eye through an accident at birth which made her afraid of the other cows in the herd and she used to get bullied around so was sold as a 3yr old. Dam of Glenmore Florette, (full sister to Golden Folly) VHC CP, SD, Elite Merit, Champion Cow at Cambridge at 14 years old. Florence was a full sister to Glenmore Melody, VHC CP, SD, Merit Cow.

BIG HOLLOW STYLISH MAJOR

Sire of numerous Exc cows. His sire, Glenmore Attainment, was the sire of Big Hollow Magic Omen. Refer to Lot A. Stylish Major's dam was Big Hollow Golden Marie, VHC Merit.

KEVILOR SAMEEN - VHC CP, SD

Elite Merit 1000 gallons
Records to 634 lbs fat. Sameen was voted 'Cow of the Century' at Jersey NZ's 2002 Centennial celebrations. Her 2 daughters, Big Hollow Stylish Sue and Royal Dinah were classified Exc, and both were outstanding progenitors. Her sons included Big Hollow Regal Sam, who left many wonderful cows and herd sires for the Allyn stud, and Big Hollow Blue Sam, left many noted show winners and champions in the Tarnhowe and Lamorna studs. Of special note was Lamorna Blue Dream and her fantastic daughter, Lamorna Design's Davinia, both Exc and show champions.

BIG HOLLOW ROYAL BAXTER

FAIRWAY NOBLE GRANDEE

Fairway Noble Grandee was a twin and we purchased him at the Fairway dispersal in 1979 for \$14,500. We had never spent that type of money before on an animal. Archie Jenkins (Brookvale) was the underbidder. Dad had travelled to Fairway several times in the months leading up to the dispersal and it was clear in his mind that Grandee was the bull we should choose instead of the twin brother, Grandiose. And the Fairway studmaster, Bob McHardie thought we took the right one too. Dad could put animals together because he did it with the pigs too, and he trusted his instincts when buying Grandee. We used Grandee extensively and never stopped using him. He proved a great success. Grandee left wonderful animals, especially over the Magic Omen and Folly's Sultan daughters. Grandee certainly set us moving along the road to success. He left real quality. We ended up putting him down as an old bull, because he got cancer in the throat – he couldn't swallow his food anymore.

SIRE:

FAIRWAY CUPID'S METEOR

Sold at the Fairway dispersal sale for \$10,500, One of the best sires used at Fairway. Full brother to Fairway Golden Meteor, Merit Sire. Cupid's Meteor was sire of numerous show winners including Fairway Cute Emmaline, VHC, Res Champion at the Waikato show and sold for \$16,000; also Fairway Cute Lizette, VHC winner of 6 championships. His numerous Fairway sons went into many different herds and performed admirably. Meteor had 6 strains of Dunlavin Excellency in his first 5 generations.

BIG HOLLOW DESIGN'S METEOR

Superior Sire. 11 Exc and 249 VHC dtrs. Sold as a yearling to the Silverlea stud in Rangiora and then on-sold as a 6yr old bull in 1969 to the Lamorna stud for the Australasian record price of \$16,200. Meteor left many great sons at Silverlea and Lamorna. One of his most influential sons was Madeley Park Design's Bravo, who sired Linmore Bravo's Bribery, one of NZ's greatest ever show cows and winner of the NZ Premier Pedigree Dairy Cow class a record 6 times. Meteor also left fantastic dtrs including Lamorna Design's Stacey, Supreme Champion All Breeds Stratford 1972 and Lamorna Design's Davinia, many times All Breeds Champion and dam of Lamorna Roz Duke, a bull used heavily and successfully at Beledene. Meteor sired 3 different NZ Royal Show champions.

BIG HOLLOW FOLLY'S DESIGN

BELEDENE DUKE'S LORD

Born: 15/08/88

Birth ID: BHKJ 88-35

BELEDENE DUKE'S LORD

Duke's Lord's sire Roz Duke did a really good job for us. We've often said that we should have tried to buy Lamorna Roz Duke off the Tippett family and mated him over the Grandee daughters, because that is where he worked so well and Duke's Lord and all his full sister's and brother's were that mating. You never failed to breed a good one with that cross. It duplicated the blood of the full brothers, Folly's Design and Folly's Major along with the 3/4 brother Folly's Sultan, the three great sons of Glenmore Golden Folly. Roz Duke was a marvellous looking bull and won many championships and Duke's Lord was probably the best bull we have ever used. We mated Duke's Lord over a lot of the Grandee daughters. Lindsay Morgan (Linmore) always used to say the nephew over auntie mating was a good mating. We have always thought Duke's Lord was very underrated by the rest of New Zealand and we still have semen in the bank from him, but he was fantastic for us. Duke's Lord used to love bananas. He would always come to the gate and want a banana. His full sister Duke's Libby was Donald's cow – "we just seemed to get on pretty well together", says Donald. Sunbright, Lupin, Lamore, Sophie, Starbud, Irene, Salvia, all magnificent daughters of Duke's Lord. They were so uniformed. There are a few straws of Duke's Lord for sale as Lot 233.

SIRE:

LAMORNA ROZ DUKE

Sire of 14 SPT, 3 ST and 55 VHC dtrs. Sire of Beledene Duke's Sybil, Superior 95, Champion Cow 1996 NZL Royal Show. Roz Duke himself won many championships in the days of showing bulls. His combination with Beledene Noble Lydia was unmatched at Beledene. His maternal sister, Lamorna Dazzler's Dove, Exc Elite Merit, 330 kgs fat, was Supreme Champion All Breeds at the 1980 and 1981 NZL Royal shows. Dove won over 60 championships and was Taranaki Cow of the Year from 1980 – 1983.

HASTY RIVER ROSLYN SULTAN

Sire of 22 SPT, 14 ST and 98 VHC dtrs. He was NZ's leading sire of Superior dtrs for a period of time. One of his best daughters was Hasty River Sultan's Diane, 290 kgs fat, who was Supreme Champion All Breeds Stratford 1981 and winner NZ Premier Pedigree Dairy Cow Class. Sultan's full sister, Hasty River Sultan's Robyn, Exc CP Elite Merit, and also Supreme Champion All Breeds Stratford 1974. Arguably his best son, along with Duke, is possibly Owharoa Bond, a heavily used bull throughout NZ.

We often wished we had purchased Revel's Grant. Our nephew, Murray Skedgwell bought him privately. We used his semen. Archie Jenkins had always wanted us to use Revel's Grant, yet we didn't use him until he was about 8 years old. Initially Archie used him at Brookvale where he did a great job. Once again, he had the ability to go so well over the Duke's Lord's daughters. The Grant daughters were very strong loined cows with good strong top lines. They were possibly a bit larger and longer cows than the Duke's Lord's daughters. He left many great cows – probably Grant's Inallia was the cream of them. Inallia was a big cow and had lots of admirers. Some Jersey breeders thought she was too big, but the other breeds loved her, particularly the Ayrshires. Pete started leading her and we never changed it – she was Pete's cow. Grant's grandson Dels Montana, Lot K, has thrown a lot to Grant. Sunshade, Snowlady, Montina, Sunlight, Imp, Inga, Swallow, Lydiette, Liberty, all great daughters and Leonie too. Leonie was most definitely won of his best – just lost way too early in her life.

BELEDENE GRANT'S STARMAN

Starman was a great banana eater too and apples. "He loved apples," says Margaret, "but he loved them cored and cut into quarters. And with peaches, he would roll the stone around in his mouth for a few minutes and then spit it out. Children used to love feeding him and he also loved crusts of bread." Starman was the first of our greats to be buried on our farm (see page 12). The Starman daughters were lovely natured cattle and had good milk weights and were great shed cows. His dam, Star Rose, was right up there with some of the best cows we have bred. Even though she never won a championship, she was in our show team. We always tried to use a son of an 'outcross' bull, and Revel's Grant was the outcross, so Starman was the son we used. His daughter Star Virginia was one of our favourites.

Mandel wasn't a terribly sound bull. When we bought him as a calf, Frank Green (Mount Meadows) had had a bad autumn for excema and I think he had overdosed him with zinc and he got a bit of zinc poisoning, so he was never really 100% fertile, but he still left some great daughters for us that have bred on. We bought him because of the Major Mint family to bring in another good cow family that had done well over the years. We paid \$2,700 for him in 1989. The 'M' family had been the top female line at Mount Meadows since 1920. They had plenty of size with quality. Major Mint was a big cow, very big in fact. One of his best daughters was Tans Maiden who we took to the NZ Dairy Expo and she got Reserve Intermediate Champion. Tans Moonlight and Tans Lily were probably his best two breeding daughters. Mandel's daughters came in when the Grant daughters were at their peak, so he had to compete with Revel's Grant. He also was born the same year as Duke's Lord, so his time at Beledene was perhaps overshadowed a little bit by these other two bulls.

SIRE:

FERDON TANDRAS LOYALIST

Sire of 2 SPT, 4 ST and 56 VHC dtrs. Used heavily at the Mount Meadows stud through the 1980s. His dtr Mount Meadows Tans Adorn, EX4, is the dam of the big production bull, Doubleear Lester's Ace. Another daughter, Mount Meadows Tans Minuet, was the founder of the Maid family at Golden Oak. Loyalist was a full sister to Ferdon Tandras Lunetta, VHC, a high producing cow at Ferdon, with records to 277 kgs fat at 3 yrs, also 279 and 285 kgs fat. Another full sister, Ferdon Tandras Loreen, A, PI 144 for her first two herd tests as a 2 yr old, before being shipped to England to Her Majesty Queen Elizabeth 2nd's Windsor stud.

KATANDRA INCOMPARABLE

Senior Herd Sire at Ferdon for many years. His pedigree had multiple strains of the great cow, Tolgarth Illusion, who was exported to Australia in the early 1940s for a record price of 600gns. Incomparable had a major influence on Jerseys in Australasia with many daughters winning the major championships, and his sons siring high producing show winners as well. One of his best dtrs was Homelands Incomparable Silvermine, Sup, who held the Sth Australian 2yr and 4yr old production records with 362 and 481 kgs fat – also winner of many championships. Another dtr, Tallagandra Hubelle 2nd, Sup 92, was Supreme Champion All Breeds at the 1987 and 1988 Melbourne Royal Shows. His sons included the full brothers, Ferdon Tandras Elvis, used with great success at Ferdon and Ferdon Tandras Ensign, who left many great brood cows at Beledene.

HASTY RIVER BOYS DAFFODIL
Dam of Remus Dollar

His best daughter no doubt was Rems Linley, who won Supreme Champion All Breeds at Stratford and won the NZ Premier Pedigree Dairy Class as well. Rems Lydelle was also a tremendous breeding cow. Johnson's had showed Dollar's dam, Daffodil, successfully, and we liked her a lot and she had a very good udder. Dollar came from the Big Hollow Easter Daisy family that is one of the best female lines in New Zealand. Dollar's pedigree is also overloaded with strains of Hasty River Roslyn, the matron of Hasty River, and her full brother/sister pairing of Roslyn Sultan and Sultan's Robyn. There are also multiple strains of Glenmore Golden Folly, Lamorna Blue Dream and Linmore Red Bambi – all great NZ Jersey cows.

With Top Lad, the older his daughters get, the better they get, and they last well. Top Lad was the same age as Summer Leader, and they were great mates when they were younger, but then we had to separate them as older mature bulls. We saw the dam of Glenamore Top Prize, and she was one of the best cows we saw on our travels, so that's why we used him as another outcross bull. Top Lad's dam, Lord's Lupin was linebred to Sultan's Libby in the fourth generation, and a lot of Top Lad's best daughters are actually from the Regal Leonie line – Top Lydia, Top Liberry, Top Lillian, all championship winners. His oldest daughters are now 11 years old and quite a lot are becoming SPT cows.

The Summer Leader daughters can produce the great ones, as evidenced by Sam's Starlee, (Lot 11), and Centurion Marnie (Lot 24) who are both from Summer Leader daughters. They are tremendously showy animals. His dam, Leonie, was a corks cow and her other son, Bright Leon could also breed the great ones. Leonie was a big loss to us. She could have produced many more top influential offspring, but we lost her at 5yrs. And then you had Duke's Libby and Noble Lydia on the bottom line. So the great ones were close up in his pedigree. Also on the top side of the pedigree is Duke's Lord, Libby's full brother. A pedigree constructed like this will always produce great brood cows.

Montana is one of the best bulls we've used in recent years – there's no doubt about that. He was Premier Sire at the 2017 Stratford Show in what was a very strong Jersey section. He got arthritis in his front legs, so we put him down last year. Originally, he was just a spare bull on the farm, but when his first daughters came in, we realized we had something pretty good. In fact his first 3 daughters, Isalei, Levina and Miri, average VHC 96 with Isalei and Levina being Intermediate Champions and Miri won the Veteran class at Stratford this year. Another of his daughters, Mons Loni, was a real star in the making, but we lost her at the Stratford show with a twisted bowel; also Mons Samena this year as a 2yr old is one of the best 2yr olds we've had for a long time. There are plenty more good ones to come too. Montina, his dam, has proved to be a great bull mother, as her other son, Coms Mario has done well too. Montina was a real good cow as her production along with her show winnings prove. Her average ALI of 123 means she was 23% better than the average cow in our herd which is quite a substantial figure. Montana has thrown a lot to Brookvale Revel's Grant, and there are a lot of good daughters for sale in the catalogue. Montana has been tested A2/A2 and there are some straws of semen for sale as Lot 235.

BELEDENE DELS MONTANA

SIRE:

BELEDENE PAL'S DELTON

Sire of 18 VHC daughters at Beledene av. 91.2 pts. Daughters include Beledene Dels Valma, VHC 94, 465 kgs ms at 2yrs and 1st 2yr old Stratford 2011; Beledene Dels Lulu, VHC 94, 577 kgs, 1st 2yr old Stratford 2013; Beledene Dels Venus, VHC 94, 506 kgs ms. Pal's Delton's female line is a high milk producing line of cows, with several generations over 5,000 litres and numerous records over 500 kgs milksolids. One of the best production lines at Beledene.

CEDARWOOD RICH PAL

This bull was purchased by Beledene on account of his dam's high productive ability. He descends from a very good cow family at Gyndale that traces back to a strong family at Brookdale. His best dtrs at Beledene were Pal's Impie and Pal's Sunsprite, both VHC 94.

THE Cow Families OF BELEDENE

“We’ve always said there is no hard and fast way about breeding stock, but we feel if you’ve got good families, it makes it a whole lot easier to breed good animals. If you haven’t got good families, they can be anywhere. And even if you strike a bull that’s not so good, those good families are like an anchor, they hold you together.” - Malcolm Revell

The current Beledene herd consists of eight different female families – known by their family names.

They are the **Leonie, Sarah, Irene, Marie, Valma, Angeline, Bouquet and Della families**. In the following pages there are chapters devoted to each family.

What is interesting is that four of these lines – the Leonie, Valma, Angeline and Della lines - all descend to the same original taproot female, an English cow called Primrose. The Sarah and Irene families are connected as they are just two different branches of the same tree.

Therefore here is a quick comment on the four different taproot females.

PRIMROSE (*Leonie, Valma, Angeline and Della*) – was a Jersey cow imported into New Zealand from England by Mr. H.P. Hill, from Avonside in Christchurch. Date of importation is unknown but assumed to be in the late 1860s or early 1870s.

The first edition of the English Jersey Herd Book was printed in 1879, so this was before the official English herd books began. The first tabulated form of the Jersey Island Herd book was published in 1873. We can be satisfied however that the Jersey population in England at that time all originated from Jersey Island – it was just before the official recording of herd books began.

LUCY (*Sarah and Irene*) – who along with her travelling mates, *Silky*, and a bull called *Old Marquis*, were the first three Jerseys to set foot in New Zealand.

They arrived in Wanganui in 1862 and were imported by Mr. Thomas Syers, who himself was from Jersey island. Lucy was mated with Old Marquis many times and in 1874 gave birth to a famous daughter called *Jenny*.

As a calf, Jenny was gifted to Mrs Edith Halcombe who lived near Marton, who then sold her as a 2yr old to Mr. William Hulke of Bell Block, New Plymouth. He paid 40 pounds for her, put a halter on and led her by foot the 130 miles (210 kms) to his farm in New Plymouth. And that was the introduction of Jerseys to Taranaki.

A note in Mr. Hulke’s diary: “*In 1880, the week before the Taranaki A & P Show, Jenny travelled 110 miles by rail and 55 miles by road being five months pregnant and competed in the open milking class open to all-comers, taking first prize*”. The Sarah and Irene lines descend to this famous cow Jenny.

SILKY (*Marie*) – was a travelling companion to Lucy (*see above*) when they arrived in Wanganui in 1862 – the first Jerseys to arrive in New Zealand. Silky’s original name was “Duchess”.

HILDO (*Bouquet*) – was a purebred Jersey cow of Jersey Island descent although her pedigree has been lost. She was owned by the Mullane Bros., who lived in Bolinda, Melbourne. Her grand-daughter, *Eileen*, born in 1891, was imported into New Zealand by Mr. A. Hodgkinson, from Takaka. At the same time, Eileen’s daughter, Neat Irene was also imported into New Zealand by the Willis Bros., who lived in Mount Albert in Auckland. The Bouquet family descends to *Neat Irene*.

Leonie Family

WAIOHINE REGAL LEONIE

We purchased **Waiohine Regal Leonie** in 1966 at the Waiohine dispersal down in Greytown. Brian Haigh had the Waiohine stud. I think we purchased her for 250 guineas. She was a 3yr old and she was the one that Brian recommended to us. We couldn't have wished for a better cow as she bred on so well down through the generations.

Leonie's dam, **Waiohine Ensign Lola**, had won quite a few championships down in the Wairarapa and **Roy Bell** (Pinewoods) bought her as an old cow. She had a daughter called **Pinewoods Royal Vonne**, which started our **Verena** family which only has **Beledene Supreme Venus** in it now.

Regal Leonie lived until about 18 yrs old – **Noble Lydia** lived until about 21 – and a lot of that family just live on and on. They are our most dominant family.

They were the type of cows that the older they got, the better they got.

Sultan's Luculia was a great cow.

The mating of **Noble Lydia** to **Lamorna Roz Duke** occurred 12 times (*no flushing*) and it has probably been our most influential cross ever.

That Waiohine dispersal - we bought 6 cows that days and we've often said we should have bought a truck full that day, because they were going quite cheap and they all turned out good for us.

We went there because Brian Haigh had used a lot of Pinewoods bulls and our stud was based on Pinewoods families too.

Sarah Family

PINEWOODS ROYAL SYLVIA (*pictured*) (SARAH FAMILY)

Pinewoods Royal Sylvia was a broken coloured cow who left us 2 strains.

One through Beledene Royal Starlight and the other through Beledene Sultan's Sarah.

We refer to this family as the Sarah family.

Sylvia was purchased as an in-calf heifer at the Waiwakaiho saleyards and she had a lovely udder when she calved in.

Royal Sylvia's dam was Pinewoods Ensign Maiden, who was the 4th dam of Pinewoods Merry Irene, so our Sarah and Irene families come from the same taproot cow, Pinewoods Ensign Maiden.

The Sarah family, whether it be through the Starlight branch or the Sarah branch, have just kept on producing for us. Along with the Leonie family, they are our two most prominent families, numbers-wise.

Irene Family

PINEWOODS MERRY IRENE

Pinewoods Merry Irene was also purchased as an incalf heifer. She was a little bit plainer as a heifer, but she developed into something really good. Reg Broad of the Francliff stud in Victoria, saw her as a young cow and tried to buy her off us, but we were just starting out and we didn't want to part with her. Ronnie MacDonald (Merriland stud) was another one that went mad on her too and wanted to buy her. She was certainly one of our star cows in the 60s – a beautiful cow that we lost with excema in the finish as an old cow.

It was in the days before zinc came around.

Irene's granddam, *Pines Gold Joanna*, was Champion Cow at Stratford in 1958, and there are sure to be many more Champion Cows at Stratford in the future that come from this line. *Gold Joanna's* granddam was *Pinewoods Ensign Maiden*, who was the dam of *Royal Sylvia*, (pg 40).

The **Irene** line just keep throwing out really good cows and once a decade or so, they produce a star cow like *Grant's Inallia*. *Mons Isalei* was another really top cow and now we have this really special 2yr old, *Squire's Idelia*, Lot 61, who we think is developing into a top show cow.

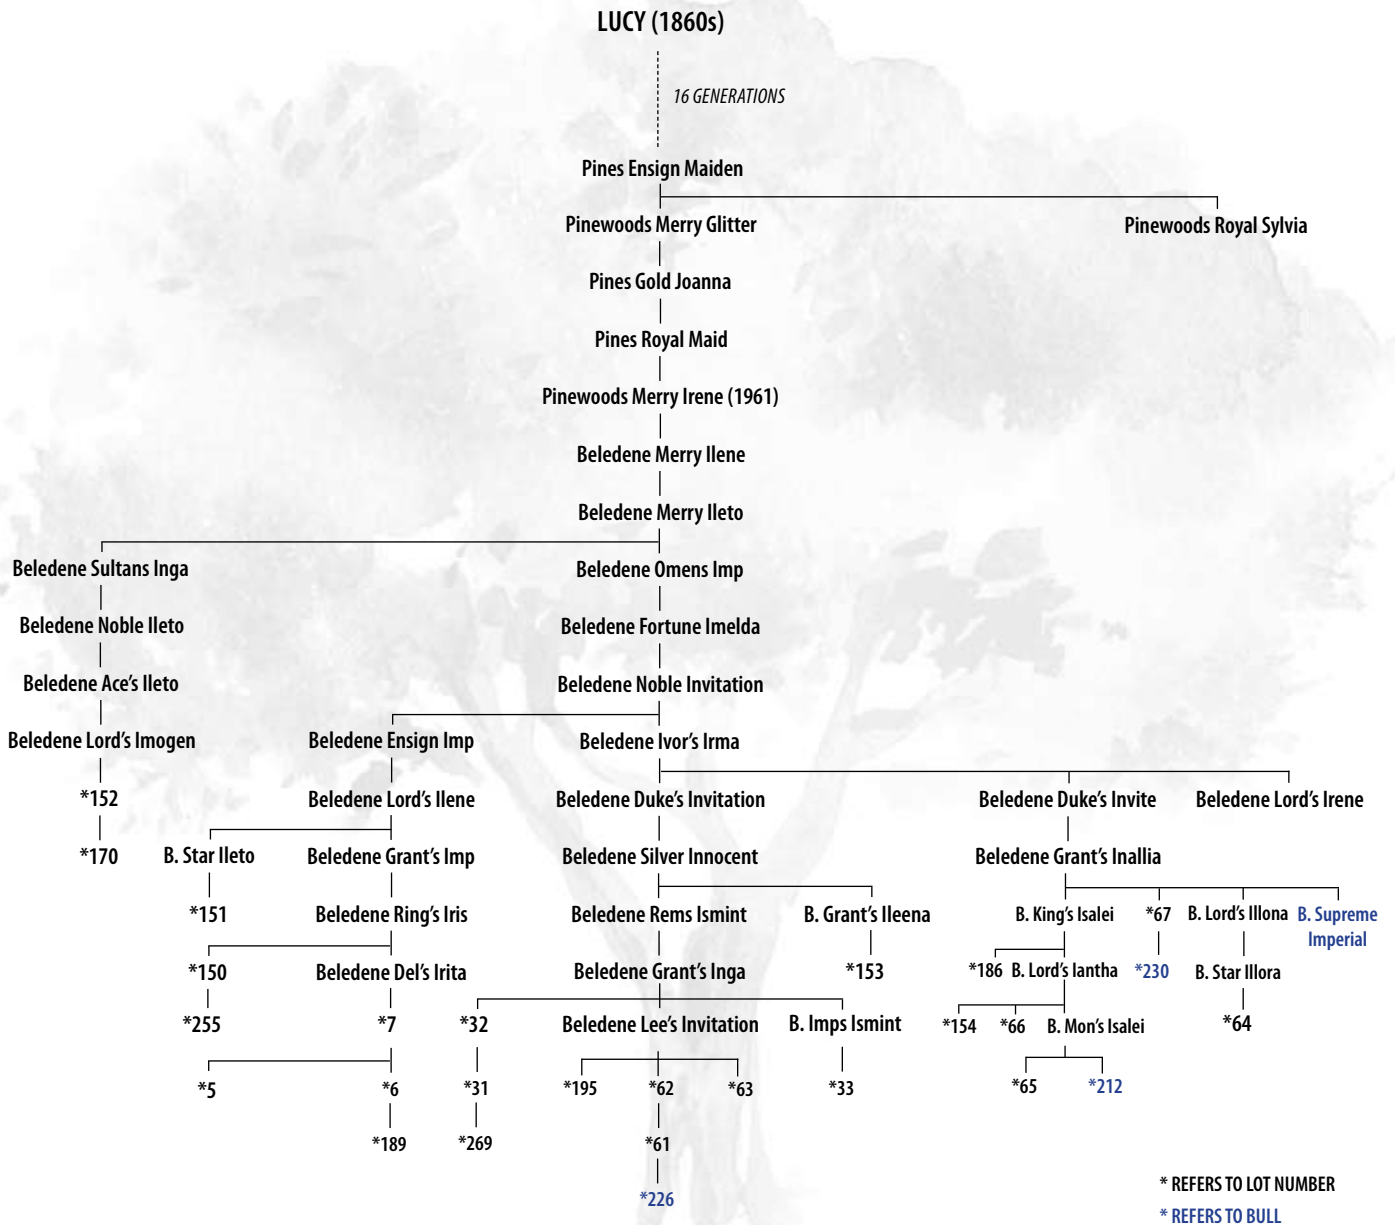

The Irene family, through *Grant's Inallia*, also gave us *Supreme Imperial*, who has sired big, strong cows with correct frames that are turning into tremendous brood cows.

The Irene family has been and will continue to be a prominent line for Jersey breeders.

Marie Family

PINES ROYAL MARIE

We bought **Pines Royal Marie** as a 2nd mate to **Pines Gold Monica** in 1960 at a combined breeders sale at the Waiwakaiho saleyards in New Plymouth. They were the first two Pinewoods cows we bought from Mr. Bell who farmed at Oakura. The calf Marie was carrying was *Beledene Royal Pet*. She was by *Merriland Concentration* and she bred down the 'P' side of the family, which unfortunately we've lost and there are no members of that branch in the present day herd. *Royal Pet*, *Royal Petunia* and *Omen's Petrina* were three of our best cows in the early days.

Our nephew, Murray Skedgewell, Mount Lake stud, has a Petal family that goes back to Royal Pet.

When we bought Marie, everyone told us we had bought a 'dud', because she always carried a lot of condition, but she turned out better than Monica, which is the one we went to buy. We just bought Marie as a travelling companion for her – paid about 70-80 guineas, whereas Monica was about 200 guineas.

Marie's other daughter, *Omen's Marie* was a very good cow and she started the 'M' line which is in the herd today.

We showed *Sultan's Melita* successfully, and then her daughter *Dignity Marie* left us about 6 or 7 VHC dtrs of which *Noble Moonlight*, a beautiful cow, was one of them. *Noble Moonlight* produced *Tans Moonlight*, a tremendous breeding cow and all our current members descend to *Tans Moonlight*. David Scott (*Fielding*) had a full brother to Tans Moonlight and he left lots of really good daughters.

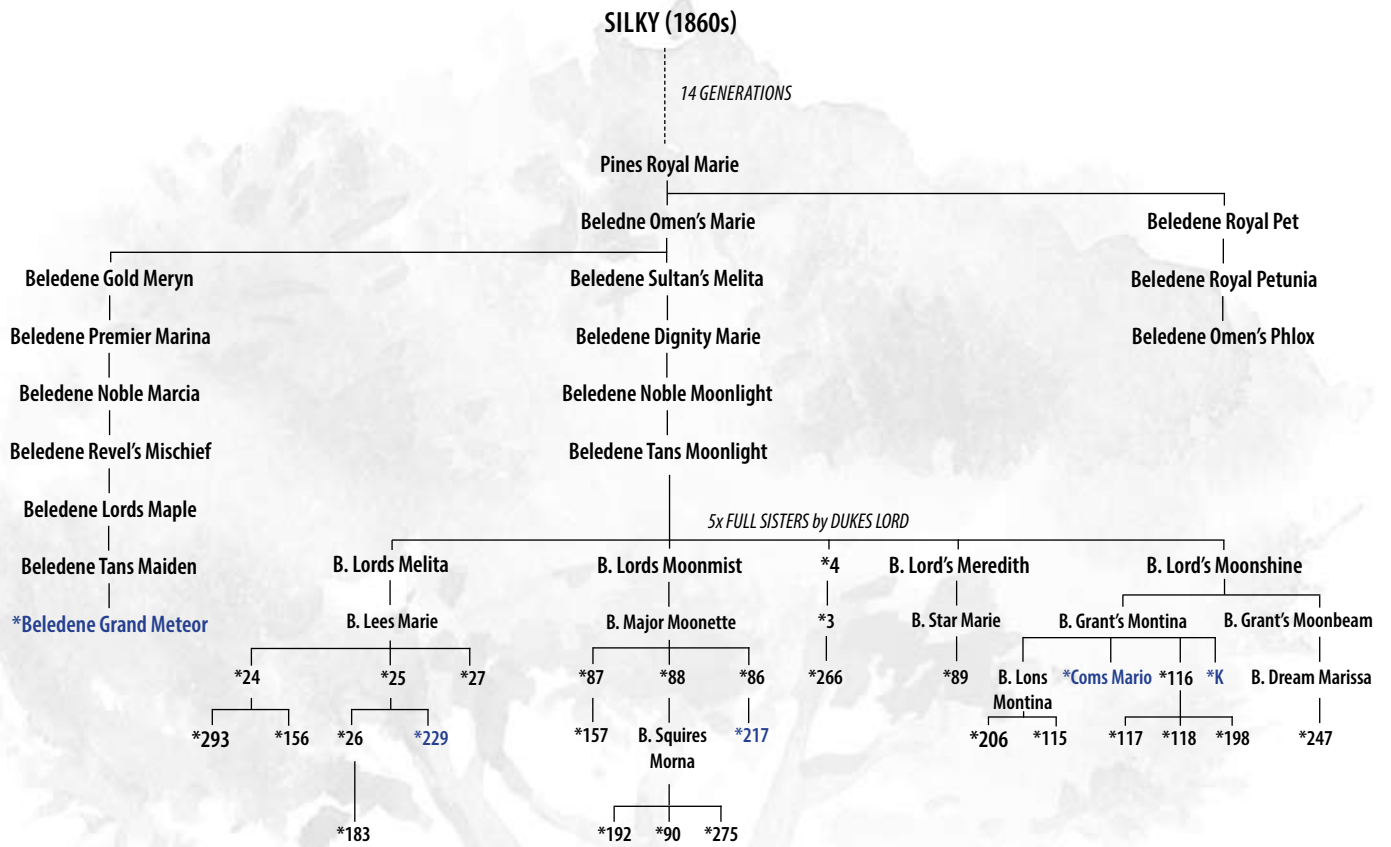

Moonlight produced 5 wonderful daughters, all by *Duke's Lord*, and they all bred on. *Grant's Montina* was a beautiful cow, one of our best, and her son *Montana* has over 50 milking daughters in the catalogue and about 30 young stock.

That shows how much we think of him. And then we've got *Marnie*, and *Mons Miri* and some really good young ones, so the **Marie family** is really producing some good ones at the moment.

Valma Family

GLAMORGAN MISTY CAMELIA was purchased as a calf from Stan Morgan, the next road over, just as a private sale. We ended up calling this line the 'Valma' family after *Beledene Vain Valma* who was a wonderful cow.

Valma was a very graceful cow the way she walked and she took the eye of a lot of breeders. She was a dark cow and I think she paid the price for that a little bit because the Jerseys in those days preferred the golden colour more.

She was a lot longer in the face too and we've got a broad halter that we had made especially for her and we still use it today. She didn't have a poor head, it was just different – a very milky head.

It is a family that has always been there and show cows appear every now and again – *Beledene Star Virginia* won us a lot of ribbons and her mother, *Beledene Lord's Vickilee* was a tremendous production cow and a real dairy cow.

Angeline Family

MONOWAI ROYAL ANGELINE

Monowai Royal Angeline is the 'Anna' family from Big Hollow. We purchased her from Eddie Ellison at Dannevirke when he sold out the Monowai stud. Jack Baker was probably the instigator for us going there and buying that cow.

Don Ferguson (Ferdon) bought her grandmother the same day and she started the Ferdon Anna family.

Royal Angeline's daughter, *Beledene Fortune Amelia*, was never a high producer, because in those days we had horns on the cows, and the other cows hounded Amelia in the yard. She was a very timid cow, yet her daughter *Beledene Symbol's Amy* was a really, really great cow that we won the North Island championship with.

Bouquet Family

KAKARIKI SULTAN'S BOUQUET

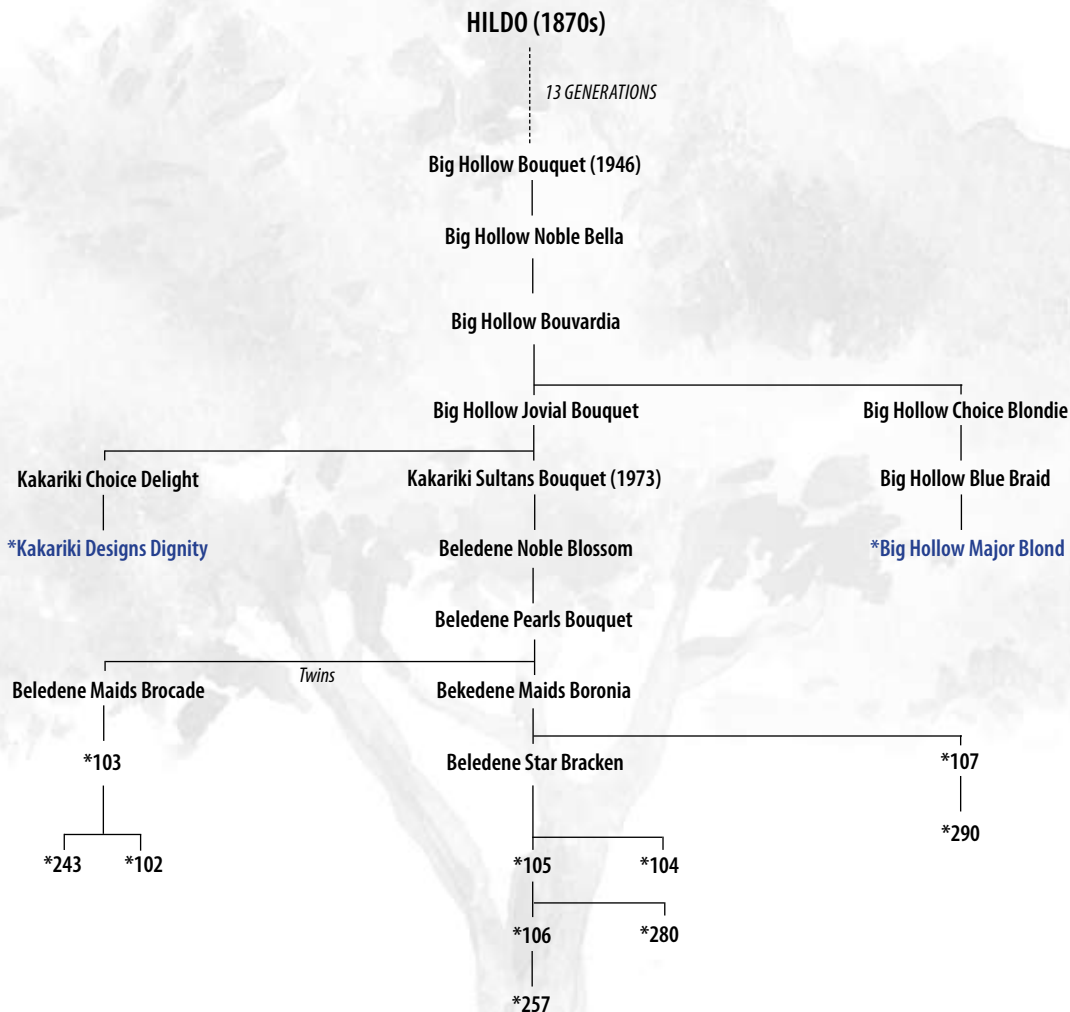

Kakariki Sultan's Bouquet was purchased from the Billingtons down at Mangatainoka and once again, Jack Baker was involved with us buying her. Jack looked after us pretty well really when you think about it.

She was by *Big Hollow Folly's Sultan* from the very good Bouquet family at Big Hollow.

We used a bull from this Big Hollow family named *Kakariki Design's Dignity*. He left us 5 Excellent cows including *Beledene Dignity Marie*, (see Marie tree). Another bull was *Big Hollow Major Blond* who sired Mount Meadows Tans Mandel's dam (see Lot G).

Bouquet was quite a cow. Somebody wanted eggs from her once, so we sent her away up the Waikato, and I don't know whatever happened, but they never got any eggs from her. Lindsay Morgan brought her back in his horse float behind his truck and coming down past Tariki, the drawbar broke. She was in the horse float and it broke off the truck. She was quite safe but it put the wind up Lindsay, because old Lindsay used to put the foot down hard, so that gave him a scare.

Maids Boronia and *Maids Brocade* were twins. One was red and the other very dark. They were lovely natured cows and very often you would see them together in the paddock. They had a close bond with one another. One died and then the other didn't last very long after it. Once one went, the other one went too.

Dawn Family

PINEWOODS JOVIAL DAWN *Della Family*

As mentioned in the introduction on Page 36, the Della family traces back to Primrose. The NZ record production holder in the 1920's was Holly Oak's Annie. It was a full sister of Annie's that the Pinewoods stud purchased and bred for 40 years at Okato that led to **Jovial Dawn**.

Pinewoods Jovial Dawn was bought as a yearling in 1974 around the coast of Taranaki. "I think it was the Okato Jersey Club that put a special sale on. We actually milked her mother too, *Pinewoods Flash Rosanna*, but we didn't own her. We just milked her for Roy Bell after he retired, because he wanted a good home for her. This family was quite well renowned for really good udders."

Whilst the Della family is lower in numbers, they are a strong production family.

The bull *Pal's Delton* has had a strong influence through his son *Dels Montana*, Lot K.

Important Sale Notes...

PAYMENT TERMS:

The sale will be transacted in early October with all payments due from purchasers on the 20th October 2018.

If any purchasers wish to pay earlier please advise our sales office team on sale day.

OVERSEAS PURCHASERS:

Overseas purchasers are required to have an “Irrevocable letter of credit from a reputable bank” or a letter from a “Livestock Agency” prepared to accept a debit for the purchaser addressed to the selling companies. These letters must be received and be able to be verified at least 24 hours prior to sale day. Contact details for verification from the receiving bank or livestock agency is required. Please contact Brian Robinson or Trevor Hancock for further information.

TRANSFERS:

LIC transfer certificates will be available on sale day. The vendors are prepared to allow transfer of any animals purchased by Jersey NZ members through Jersey NZ. The vendors will help with these transfers where necessary.

HERD DRY OFF:

All cows will be dried off, dry cow treated and teat-sealed the week following the sale unless the vendors are advised to the contrary.

TRANSPORT:

Delivery is immediate or as soon as it can be arranged. Please leave explicit instructions as to delivery when signing for your purchases before leaving the sale. Every endeavour will be made to arrange transport suitable to all parties if the selling companies are asked to arrange transport.

HERD SIRES:

The five older herd sires being offered for sale will not come in to the sale ring. Because they have always been run separately the vendors ask that they be transported separately.

HERD TESTING:

Since 2005, the Beledene herd has been tested by the CRV Ambreed company. An explanation of the Ambreed Lactation Index (ALI) follows.

“This is a herd lactation index and rates the cows on their production taking into account the age of the cow and also the days of current lactation.

100 index is an average for the herd – eg. An ALI of 103 indicates the cow has produced 3% more than the average of her herdmates for that age group.

CLASSIFICATION:

The Beledene stud has been classified under the Purebred Jersey Cattle Society of NZ.

The classification scheme is as follows.

AGE	RATING	POINTS	
10yr +	SPT (2003>)	88+	SUPERIOR PRODUCTION & TYPE

THORNWOOD ACE'S CHARLIE

13 dtrs averaged 91.77 points. His first 2 in-milk daughters at Beledene both classified A2 88 and have ALI's of 108 and 120. He was purchased by the Leithlea stud of Tony Luckin, Okato, where he has done a wonderful job in correcting cows through his solid production, strong frames and tremendous udders. His progeny sold for up to \$3,600 at the Mayfair dispersal in 2017.

DOUBLEAAR LESTER'S ACE

NZAEI Sire Summary: 555 dtrs / 79 herds BW -39/97%. Milk BV -793; Fat BV -24; Protein BV -19. Lester's Ace has been a high production bull for the breeders that have used him. He has left cows with strength and correct frames with top udders. He has been used heavily and successfully at the Cedarwood, Doubleaar, Ferdon and Mayfair studs.

HIGHLAND DUNCAN LESTER

Duncan Lester and his sire, Highland Magic Duncan have had a phenomenal influence over the Jersey breed worldwide. They are considered the 'production bulls' of the breed. Lester achieved the rare feat in 1991 of being the number one US sire for both PTI and PTAT.

Lord's Moonlight has produced very consistently for us and should continue to do so for several more years. She is the youngest of 5 very good full sisters that have all bred on extremely well. Some of our best, Dels Montana and Centurion Marnie, have these full sisters as their granddams, so there is real breeding power here.

Family: Pinewoods Royal Sylvia

Born: 31/07/10 Birth ID: BHKJ 10-46

Tag No. 77

What can we say about Starlee – she is just a super cow. She would probably have to be the best we have had. Duke's Libby was good but Starlee would have beaten her. Due to our age, we have only shown within Taranaki in the last decade or so. Therefore Starlee hasn't been to the NZ Dairy Event. We have been told she would have matched up with the best. We have had Australian visitors tell us that she could take on the best at the IDW in Victoria. She is truly a world-class cow, by any standards. Her show career might be in its twilight years, but her breeding career may be only just starting. Her first son, Beledene Loyal Sam, Lot 210 has five heifer calves for sale and they have all of Starlee's qualities. Starlee calved late in 2017. We bred her once and she returned, so we made the decision to leave her open as it may provide more opportunities for her new purchaser to have her left open. We hope her new owner looks after her well.

Beledene Circus Lady who is the dam of Lot 14, was a very good young cow who the vets said would never get incalf again after her first calving. So we flushed her which is the only time we have done embryo work, and Autumn Lady-ET is the result. Circus Lady milked for about 3 years non-stop. These are very good cows on the bottom line of this pedigree.

BELEDENE CENTURION MARNIE – VHC 97
Selling as Lot 24.

Champion Cow Egmont 2017; Reserve Champion Cow Stratford 2017; 2nd in the NZ Premier Pedigree Dairy Cow Class 2017.

Donald: “If we were still going to be breeding, Marnie is a cow we would have kept a bull from and used him heavily. I think Marnie is probably a bit before her time. She resembles a good Holstein in lots of ways. Nowadays they are singing out for milk, and size – well Marnie’s got that.” Marnie has also got a lovely incalf heifer selling as Lot 156 and her calf (Lot 293) is the star of the show. We think Marnie has tremendous opportunities in the future as a bull dam.

Top Verna and her full sister, Top Valona, Lot 36, are two really good dairy cows that can milk, as their photos would indicate. Their dam, Lee's Viola, the Summer Leader daughter, has proven to be an exceptional breeding cow. Top Verna carries a valuable service and has years left ahead of her, and her heifer calf sells as Lot 270.

Samena was obviously the most successful 2yr old on the Taranaki show circuit this year, winning at Stratford and the Tki Purebred Show, while being 2nd at Egmont. She was also Intermediate Champion at Stratford and won the All Breeds 2yr old class as well where there were over 20 entries. We didn't take Sammy to the show, but she is of show quality. They are another example of concentrating our breeding on Brookvale Revel's Grant's best progeny, and we believe these types of pedigrees would have been the future breeding cows of Beledene if old age hadn't caught up with us. With them being twins, we hope they will stay together.

The pedigree of Mons Irma is a great example for young breeders to study. There are three strains of Brookvale Revel's Grant up close, and then we have the full siblings, Duke's Lord and Duke's Libby in the 4th generation. Like many of our best young breeding cows, they have this intensification of these two bloodlines. Mons Irma also has a strong bottom line with high conformation, good fertility, plenty of longevity and above average production. Pedigrees like this one can produce great animals as Mons Irma has already done, with her daughter, Idelia, Lot 61. Mons Irma is still a young cow, and has the potential to produce many more good ones.

Red Inallia is a direct daughter of Grant's Inallia and is due to calve early. She also is quite a character. Take note of the multiple number of lactations in the first three dams. She has a son for sale as Lot 230. In fact she has never given us a heifer calf, but with selling her this year, the luck will probably change for her new owner.

“To us, Mons Miri is an ideal dairy cow. She displays the three wedges very well, and I think that depicts a real good dairy cow. She displays very much what we like to see – cleanness, upstanding with a very good vessel. She has never given us a heifer calf, although I'm sure that will change in the future. Miri is one of the first three daughters of Montana. The other two were Mons Isalei and Mons Levina. It is quite something for a bull to throw out those three as his first three calves.” Miri was 1st 6-7yrs old Stratford 2015 and 1st Veteran Cow Egmont 2017. Miri has a son selling as Lot 217.

Mons Melita has a very good vessel and when she fully develops will be a very good cow. Her first three dams were highly fertile, very consistent producers, and the Marie family, through the five full sisters of Lord's Meredith is currently a very prominent family at the stud. Many of our best younger cows are from this family.

BELEDENE CENTURION IDAHO

Idaho is a very large bull with an impressive frame. His first 3 dams are renowned for their very high protein percentage and tremendous udders. Refer to Lot 212 for his full pedigree.

Idaho Marice is the first daughter of Beledene Centurion Idaho and we are very pleased with her. We think she will develop into a mighty cow and also be a very good breeding cow, with Grant's Montana on both sides of her pedigree.

Lot 210 – Bull BELEDENE LOYAL SAM

Family: Pinewoods Royal Sylvia

Born: 20/08/15 Birth ID: BHKJ 15-87

Loyal Sam was sold in our 2016 sale. However his semen didn't freeze, so we refunded the purchaser's money and have used him as a natural service sire and there are five heifer calves for sale sired by him. We are re-offering him for sale, but with no guarantee on the quality of his semen, as we think he could still be used successfully as a natural mating sire.

His five calves – Lots 285, 287, 288, 289 and 293 are calves we are very pleased with at this early stage. Loyal Sam has a very good temperament, and is an easy bull to work with. With Starlee as his dam, we think he will provide plenty of opportunities for whoever buys him.

BELEDENE SAM'S STARLEE – VHC 97
Dam of Lot 210.

Lot 211 – Bull BELEDENE IMPS SQUIRE

Family: Pinewoods Royal Sylvia

Born: 01/08/11 Birth ID: BHKJ 11-36

BELEDENE LORD'S SALVIA – SPT 92
Dam of Lot 211.

Imps Squire has been confirmed A2/A2. We have taken semen off him for private use, and if anyone is interested in that semen, we ask them to inquire privately.

Squire's daughters are showing some real promise. Several of them are attaining maximum scores for their age when classified. And several are also top producers. His 2yr old dtr, Idelia, Lot 61, we hold a lot of hope for.

When you look at his pedigree, you can see the large number of lactations of his 5 nearest dams, which is one of the things we look for in a pedigree. His dam, Lord's Salvia, was one of my favourite cows and had quality from her nose to her tail. She was doubly bred to the Grandee/Folly Sultan cross which worked so well for us. And then Grant's Inallia on the top side had so many admirers around the country from all breeds.

Imps Squire is an impressive bull to look at. He is a proven bull and a top bull and we recommend him highly.

Lot 212 – Bull BELEDENE CENTURION IDAHO

Family: Pinewoods Merry Irene

Born: 30/10/12 Birth ID: BHKJ 12-125

BELEDENE MONS ISALEI – VHC 95
Dam of Lot 212.

Centurion Idaho was used lightly as a young bull. We have been suitably impressed with his progeny as young stock that 30 cows for sale are carrying his service. When we have used outside blood at Beledene, we have usually found that the sons of these outcross bulls (eg. Centurion Sultan) have always performed just as well or better than the outcross bulls themselves. And we feel Idaho is another example of this. His dam was a super young cow from Montana's first crop of daughters; his 2nd dam, Lord's Iantha has been a top producer for us; and then King's Isalei (3rd dam) is a daughter of the glamour cow, Grant's Inallia.

Idaho is quite a large bull, - very long and an impressive frame.

Family: Waiohine Regal Leonie

Born: 03/10/13 Birth ID: BHKJ 13-119

BELEDENE MONS LEVINA – VHC 97
Dam of Lot 214.

We lost Mons Levina, who is the dam of Shah's Leon, with what the vet's call hardware disease. She must have eaten something like a piece of steel or a nail or something. But she was dead within 24 hours. It was a devastating loss. She was just coming in to her prime, and we considered her to be the best cow we had at that time. She could have had a big influence if we had got more progeny out of her. Her only daughter and Leon's maternal sister is selling as Lot 2, and the granddaughter, Lot 1, is a promising young cow.

In Leon's pedigree, Grant's Shah and Grant's Montina are ¾ siblings with multiple strains of Revel's Grant and Duke's Lord. Most of our best young cows coming through have this same pattern of breeding, so we think Leon will do a good job.

Lot 215 – Ylg Bull BELEDENE IDAHO SUPERIOR

Family: Pinewoods Royal Sylvia

Born: 09/11/17 Birth ID: BHKJ 17-133

Idaho Superior was a late born calf. His maternal brother sells as Lot 210, and judging by his calves, it would appear that Starlee's sons will pass on her special qualities. Not only is Starlee a special cow, she also comes from a very strong breeding female line, which has been so important to us. We believe it is these strong female lines that produce the best bulls.

Lot 217 – Ylg Bull **BELEDENE LEON MONARCH**

Family: Pines Royal Marie

Born: 30/08/17 Birth ID: BHKJ 17-94

Leon Monarch is a result of the traditional nephew over auntie method of breeding, where you take one of the best daughters of Dels Montana, and mate her son over other daughters of Montana. It is a pattern that has been used very successfully throughout the history of dairy cattle breeding. And in this instance, Mons Levina and Mons Miri (both pictured) are two outstanding Montana daughters.

Lot 220 – Ylg Bull **BELEDENE CHARS STARMAN**

Family: Pinewoods Royal Sylvia

Born: 13/08/17 Birth ID: BHKJ 17-64

Mons Stardrop who is the dam of Chars Starman is one of our favourite cows, and her full sister, Mons Starbright could possibly turn into a top show cow with more maturity. The granddam, Top Stardrop, has just got better and better with age and has proved herself a very strong breeding cow. This is a very good line of cows on the bottom line.

Dam of Lot 226.

Lot 226 – Ylg Bull BELEDENE STYLE IDEAL

Family: Pinewoods Merry Irene

Born: 06/09/17 Birth ID: BHKJ 17-102

Style Ideal is developing into an impressive young bull. Pinewoods Merry Irene (photo) was a magnificent cow in the 1960s and 13 generations later, we think Squire's Idelia has many of the same qualities that Irene had. Idelia will develop into a magnificent cow in the next year or so. She is one of the very best we have.

Lot 293 - Ylg Heifer **BELEDENE SAM'S MARNIE**

Family: Pines Royal Marie

Born: 30/09/17 Tattoo: BHKJ 17-119

Our right hand man, Peter Potts, calls Sam's Marnie, "a real little poser".

She has style, quality and is photogenic. She also has Marnie as her dam and her sire is Starlee's son. We hope she goes to a good home and is given a chance in life.

We probably couldn't offer anything better than this calf to complete our association with the Jersey Cow.

Notes

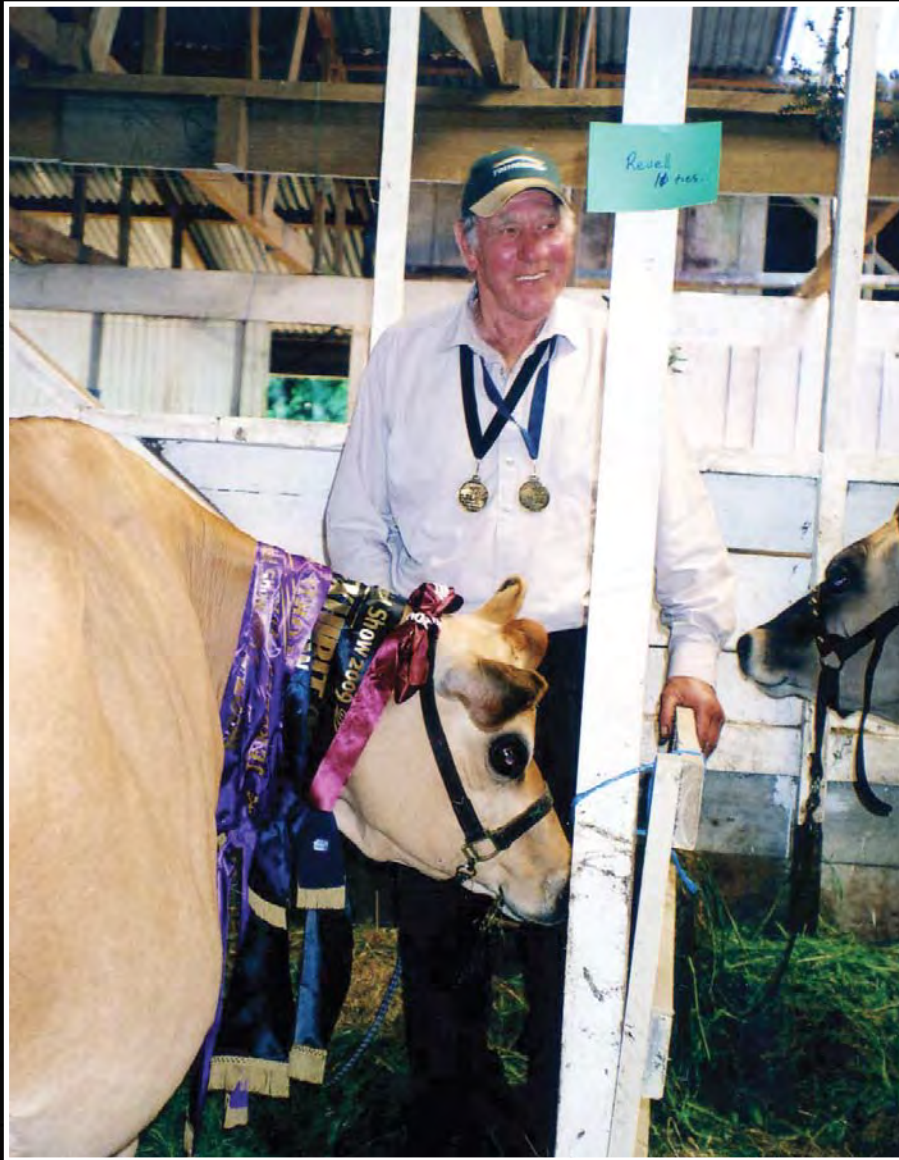

Donald, Margaret and Malcolm would like to thank and acknowledge the contribution Brian and Peter Potts have made to Beledene over the years. They are especially grateful for the assistance throughout the last 12 months and preparation leading up to sale day.

They would also like to acknowledge and thank Hayley Menzies, Neil McDonald and the staff at Jago Print & Graphics for researching, compiling and producing the 'Beledene Complete Dispersal'.

BE NOT AFRAID OF GREATNESS

SOME ARE BORN GREAT, SOME ACHIEVE
GREATNESS, AND SOME HAVE
GREATNESS THRUST UPON THEM.

THE FINAL *Beledene Show Team* - JANUARY 2018

You were there before us, but we have since had nearly 50 years of enjoyable competition. There was a time when the Beledene show team consisted of the older cows sired by Lamorna Roz Duke, headed by Beledene Duke's Libby; the mature cows sired by her full brother, Beledene Duke's Lord; the younger cows sired by Brookvale Revel's Grant; and there was a young cow named Beledene Rems Linley.

At this stage it was the best in New Zealand, and possible the best in-milk show team in the world.

What we appreciated the most, was we always knew the Beledene team was presented fairly, and paraded with pride, honesty and integrity – at times this is as good as winning.

From Pines Merry Peggy to Beledene Sam's Starlee, your dedication has been inspirational. The diversity and size of crowd on sale day will reflect the true interest in the Purebred Jersey Cow.
