Conditions of Sale

The following special conditions apply to this sale where applicable:

FEMALE GUARANTEES:

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.
This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
3. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale.
4. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2020, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2020, the seller shall refund in full the purchase price direct to the buyer.
7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

GENERAL CONDITIONS:

DELIVERY: Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

INSURANCE: If transit or annual insurance is required, such cover can be arranged through the auctioneers.

INSTRUCTIONS: Buyers must sign dockets before leaving the sale and leave full delivery instructions.

TRANSFERS: Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Transfer Certificate.

CATTLE FOR EXPORT: All stock sold for export are to be inspected by Official Inspectors of the Breed Society concerned prior to Export Certificates being granted for such stock. The seller is responsible for the 15% commission payable on all cattle sold for export.

PAYMENT TERMS: Payment 10 days after date of sale. See Special Payment Terms page.

FOREWORD

Welcome to the home of the Kohitiata and Edenmore herds again. I personally get a lot of pleasure looking at the herd – something I don't have enough time for. But the time spent assessing cows and planning the breeding have given us quite good results so far. This season's classification results are as follows:

Holstein-Friesian	63 cows ave. 85.15	T.O.P. ave Udder Overall	6.8	Dairy Conformation	7.3
	8 2yr olds ave. 83.25	National average	5.6		6.4
Catch up Classification of Milking Shorthorns (16)					
	Ave. U.O. 6.25	D.C. 7.06			
	National Ave. U.O. 5.9	D.C. 6.6			
Catch up Classification of Ayrshires (13)					
	Ave. U.O. 6.6	D.C. 7.1			
	National Ave. U.O. 5.9	D.C. 6.6			
Jerseys	U.O. ave for Jerseys classified	6.8	National ave. 5.8		
	D.C. ave for Jerseys classified	7.35	National ave. 6.6		

U.O. = udder overall
D.C. = Dairy Capacity

Including 10 EX.

The results could have been better but 'once a day' milking certainly exposes the weaker udders at a younger age. Judicious culling should see an even stronger udder genetic background in the seasons to come. Production this season, I am confident, will be back to a respectable 1000kg/HA and we should be able to push on from there with the hard working, hill climbing cows we are endeavouring to breed. Of the 30 Jerseys in outside herds with testing results in the 2017-18 Production Register, aged 9–2yrs the average LW was 145 compared to last year's 124. So they continue to prove their shifting ability. A number of this years' offerings are by Kohitiata Ironman who seems to be as good as his great brother Iceman. His BW has risen from an unproven 140 to over 200 and rising.

Remember that these heifers are not only superbly fit milking athletes, they are coached to not waste too much nitrogen in their urine. Thank you and good luck buyers.

Norm and Del Atkins, VENDORS
 PH (H) 06 374 1808 (M) 027 374 1005

AUCTIONEERS FOREWORD

In many areas of our country, passionate dairy farming breeders go about their business without fuss and fanfare. Seldom are these herds seen or heard of until they disperse or quietly exit the industry.

Although not leaving the industry, our vendors Norm and Del Atkins, are very passionate about their cows and have a herd of the very highest quality which many do not recognise or see. Founded on cow families that Norm researched and quietly bought in to, this is a herd very much worthy of more recognition. Bred to the best genetics these are cows with frame, stature, substance, capacity and top quality udders. As Norm says, "they are highly trained athletes", bred to easily withstand the rigours of everyday life as a cow.

The herd is milked once a day (O.A.D.) which suits the herd, management and allows for other work to be done on this large, very busy dairy and drystock farm.

Norm has mentioned the indices of home-bred sires. It is testament to the breeding policy at Kohitiata/Edenmore that sires selected for home use are indexing as well as, or if not better than those AB sires used. It begs the question – why have these cow families not been looked at and used by all AB companies. Diversity is what we need in the industry. You be the judges but I'm sure you won't be disappointed.

These cattle are performing extremely well as has been indicated elsewhere in this catalogue in outside herds. Returning purchasers always comment as to how well they perform.

If you are looking to enhance the quality and productive ability of your herd you should strongly consider a visit to the Kohitiata/Edenmore sale. Cattle that earn there indices, cattle that are bred to perform and that do shift well is what the industry needs.

We look forward to seeing you at Kohitiata.

Farmlands Trading Society Limited FAR21208

Being the North Island's only rural retail cooperative means a lot to us. And it means a lot to our Shareholders too, because we take the spirit of cooperation very seriously indeed. You see, here at Farmlands we immerse ourselves in your business, always working with you to increase outputs and reduce costs. We believe it's what a business partner should do and we work tirelessly to ensure it's the reality.

From the very best deals on all your farm inputs, to expert advice and extensive product knowledge,

it's a partnership in the true sense of the word. And then there's the Farmlands Card, giving you exclusive discounts on almost all your everyday spending at more than 3,000 retailers nationwide. Plus when you add discounts on farm services such as power, insurance, fuel and fertiliser, and the annual Shareholder loyalty rebate, partnering with Farmlands just makes good sense.

So if you would like another head thinking about your business, drop into your local Farmlands store, call 0800 327 652 or visit us at www.farmlands.co.nz

REGISTERED AYSHIRES:

Any animal printed on a pedigree with the Ayrshire NZ logo is registered with Ayrshire New Zealand.

For other pedigrees, the animal is registered if the breed is noted as PA (Pedigree Ayrshire) or SA (Supplementary Ayrshire). Registered animals with a suffix (eg S3A) are registered in the supplementary section and may not be A16. Unregistered bulls must be DNA profiled before registration can be completed. For more information on Ayrshire registration see www.ayrshire.org.nz

OSH

Every effort will be taken by the Vendors, Auctioneers, their staff and assistants, both on the day of the sale as well as on any other visits of inspection to ensure the safety of intending buyers and visitors.

However we wish to advise that this is a farm run under normal management conditions and certain dangers exist in relation to livestock and their environment.

Visitors should take all care to ensure their personal safety.

NOTES ON SERVICE BULLS

All Jersey service bulls are DNA tested A2A2 protein as were all the A.I. bulls used. I figure the customer is always right even if they might actually be wrong.

15-265 KOHITIATA MAGISTRATE

Grandson of the outstanding K. Lads Majesty VG4. BW130, PW130, LW's up to 549 by Terrific. See his dam's photo – inside back cover.

16-302 KOHITIATA LIBERTY
