

REGISTRATION AMNESTY 2019-20

A three tier option for ALL Jersey NZ members for an amnesty period 1 September 2019 to 31 August 2020.

- Registration application must be **received** by 31 August 2020 to take part in this amnesty
- Any registration applications under the amnesty will be completed as office workflow allows, registrations may not be fully completed immediately on request.

Option 1: E-registration

Use the 'Turn Your Herd On' automated e-registration function to register all eligible females. This will use the Supplementary Jersey grading up process and animals may have the SJ suffix. There is no requirement to complete registrations on unregistered current or historical ancestry animals.

Price \$3.25 + GST per female

Option 2 : Registry Recovered

Also using the 'Turn Your Herd On' automated e-registration process to register as above. On J16 females only that are currently registered in the Purebred Jersey Herd Book, the suffix RR (Registry Recovered) will be manually added to indicate that this animal is also registered with Purebred Jerseys. There will be no requirement to register current or historical ancestry animals, so there will be no SJ suffixes in a pedigree, but neither will ancestry show as pedigree (i.e. pedigree ancestry will show as J16 or appropriate).

Price: \$5.00 + GST per female

Option 3: Full pedigree registration

Each female animal requiring registration will be individually researched and registered as PJ, including all ancestry required so that either (at members choice):

- All ancestry on the Three Generation Pedigree (including males) is fully registered as PJ (this may require several generations of current and/or historical registrations);
OR
- The animal in question is registered as PJ, current and historical ancestry animals registered to get her to that status may be registered as SJ (supplementary) and may carry the appropriate SJ prefix.

NB. *subject to standard criteria around approval of animal owner*

Price: \$7.50 + GST per female animal that requires registration

Bull Registrations

Under Option 2: Bulls may also be registered as RR (J16 only and registered with Purebred Jerseys). Under option 3: Bulls must also be registered dependant on ancestry requirement selected by the member (i.e. sires. Grandsires etc)

All: Where a bull is registered the same restrictions apply as currently

- Bulls born from 1 June 2017 must be DNA parentage verified
- Dams of Bulls born up to 31 May 2019 must be classified, but classification in the Purebred system is accepted.
- Refer to the Registration policy for full explanation and dispensation policy.

Price: \$35.00 + GST per bull registered OR \$200.00 + GST for bulls born between 1 June 2017 and 31 May 2019 where their dam has not been classified
