**Conditions of Sale**

The following special conditions apply to this sale where applicable:

**FEMALE GUARANTEES:**

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.  
This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
3. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale.
4. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2021, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2021, the seller shall refund in full the purchase price direct to the buyer.
7. Where females are sold as not in calf, (including yearlings and calves), are flushed for embryo transfer, either with or without success, all guarantees to breed become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

**GENERAL CONDITIONS:**

**DELIVERY:** Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

**INSURANCE:** If transit or annual insurance is required, such cover can be arranged through the auctioneers.

**INSTRUCTIONS:** Buyers must sign dockets before leaving the sale and leave full delivery instructions.

**TRANSFERS:** Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Transfer Certificate.

**CATTLE FOR EXPORT:** All stock sold for export are to be inspected by Official Inspectors of the Breed Society concerned prior to Export Certificates being granted for such stock. The seller is responsible for the 15% commission payable on all cattle sold for export.

**PAYMENT TERMS: Payment due within 14 days from date of sale.**

## **AUCTIONEERS FOREWORD**

*Without doubt this is among the very best "Complete Dispersal Sales" of recent times. This outstanding herd continues to produce to the very highest level, conformation has not been compromised by a slight change in breeding philosophy to gain higher indices or the shifting/breeding on ability in outside herds. Note the number of Excellent scored cows on offer to appreciate the outstanding conformation of this herd.*

*After 42 Annual Sales, purchasers continue to return year upon year to obtain replacements and sires that perform without exception.*

*Bred from tried and proven families these are no nonsense cattle. Many awards have been won locally and nationally, among these being the recognition of the outstanding udder quality, with the winning of the National Overall Udder BV award on numerous occasions. Production has always been another strong trait at Carnmor. Herd averages always exceed 400kgs ms reaching up to 460kg ms per cow. Carnmor cows in outside herds have produced to very high levels as well, as can be seen by results published elsewhere in this publication.*

*Richard has given his life to the Jersey breed. He is a top judge, having officiated at the NZ Royal and NZ Dairy Events among other top shows across the country. He is on the JNZ Judges Advisory Committee and has had a period as a JNZ Director. His advice is sought on many Jersey issues and no doubt he will continue to contribute in some way.*

*Richard and Pauline have decided that they wish to pursue other interests, e.g. spend time with grandchildren and travel. Hence their decision to engage a sharemilker.*

*Screeds could be written but those interested breeders and Jersey farmers will know of the achievements and ability of this outstanding herd. Study the catalogue, mark your selections and make sure you are in attendance at this, once in a lifetime, opportunity. You will not purchase from more honest and astute breeders than Richard and Pauline Adam and family.*

**The Auctioneers**

## **VENDOR'S FOREWORD**

*The Carnmor Stud was founded in 1964 with the gift of three cows from my parents, all from the Tolgarth Peerless Cara family which remains in the herd today. Several other cows were purchased over the years to add new families and gradually increase numbers.*

*In 1979 Pauline and I married and took over the family farm, with more blocks being added over the years. Pauline has played an active part in the Stud as have our three daughters; Michelle, Phillipa and Jennifer. Michelle and husband Shaun purchased the Hillstar herd and took over my parents Thornwood prefix.*

*Over the years we have added new families to the Stud when suitable cows became available. We feel the herd today is as good as it has ever been. This years line of in-calf heifers is probably the best we have had, while the yearlings are undoubtedly the most exciting we have bred. It has been of great satisfaction to us that cattle we have sold at previous sales have had such incredible success for production, on classification and in the show-ring. We are proud to be able to offer the herd as it is today and are confident they will perform well wherever they go.*

**Richard and Pauline**

# HERD NOTES

Up to date herd average 2019/20: 4333 litres 5.44% 236 kgs fat, 4.17% 181 kgs protein, 416 kgs milk solids in 224 days to date. Cell count 77.

## MATING DETAILS:

**IN-CALF HEIFERS:** Were run in three different groups with the below mentioned bulls from 1/10/2019 to 28/12/2019. All heifers have been pregnancy tested in calf.

CARNMOR KAINOS LYALL BW 252

CARNMOR STARS FAME BW 270

CARNMOR JASPERS BROCK BW 186

Several heifers were mated to AB and then run with bull 3 weeks after the AB mating. Note on the 3GP which heifer was AB mated.

**COWS:** The herd were all AB mated from 1/10/2019. Bulls were **not** run after AB but any returns were naturally mated and recorded. Mating stopped on 26/12/19 and no cows are due after 30/9/2020. All cows are pregnancy tested in-calf.

- Several non pregnant cows are being offered for sale.
- Several non pregnant cows and two heifers are being retained and will be offered for sale at a later date. These along with two older and a partially blind cow are the only females not being offered. These three cows are Carnmor Herms Flower, Carnmor Zello's Flicka and Carnmor Norths Fantasy.

**FEEDING REGIME:** The herd is fed 2.5kg mixed ration in the shed daily. Grass, grass silage and turnips make up the diet.

**TRANSPORT – DELIVERY – TRANSFER INSTRUCTIONS:** No transfer cards will be sent out. All transfers will be done electronically – purchasers please ensure you supply Nait No, LIC Herd and Participant Codes on the Transport - Delivery - Transfer instruction sheet. See form elsewhere in catalogue.

**DRYING OFF:** The herd will be in-milk on sale day. It will be the purchasers responsibility to dry cow treat and dry off after delivery.

**A2 PROFILING:** The complete offering has been A2 profiled.

**PHOTOS:** The majority of photos used in this catalogue were taken by family at shows or at home on special occasions. No enhancing of photographs has been done.

**FLUSHING POLICY:** Over the years very little embryo work has been done. This spring we flushed the following eight cows: CARNMOR TRIGGERS CHIFFON (Lot 73); CARNMOR SPEEDWAY KATIE (Lot 58); CARNMOR TERRIFIC KARYN (Lot 61); CARNMOR TERRIFIC FARAH (Lot 11); CARNMOR HERMS FLOWER; CARNMOR TERRIFIC BREANNE (Lot 85); CARNMOR SPEEDWAY JOYCE (Lot 109); and CARNMOR ZELLOS OPRAH (Lot 49).

50% of the embryos were transplanted into cows owned by Shaun and Michelle Good (son-in-law and daughter). 50% are stored and will be implanted next spring. The intention is for Shaun and Michelle to retain progeny born.

## **YEARLING HEIFERS**

The yearling heifers will only be sold via an on-farm auction. If this does not happen they will be offered at a later date.

## **NEW 3GP'S**

The LIC unfortunately had a programme glitch and many of the original 3 GP's showed indices that were incorrect.

Since the last run the glitch has been corrected and the 3 GP's in this new revised catalogue are now correct.

Looked magnificent at calving (we kept her bull calf) but was top producing 2-year-old the first two tests and milked herself down too much. Could classify higher with maturity. Dam sells as Lot 2.

Unfortunately lost her calf in June. She milked well earlier but is now carrying excess condition. Looks as though she will classify well with a normal calving.

Like her full sister a little immature, being an October calf but I would expect her to make a top cow. Her dam is one of the three cows being retained because of her age.

## Bellwin Quince – family

Quince was purchased by my father from the Townsend family in 1943 while still going to school. She was his first cow and her family has been dominant in the herd for many years. It is still strong with three branches – Thornwood Marie, Thornwood Autumn Poppett VHC and Show winner and Thornwood Revels Olga VHC Show winner.

One of our very top heifers at calving but a minor case of mastitis has left her very light in one back quarter. I am not convinced this will come back to full milk next season so is being sold as a three-quarter cow. Dam sells as Lot 30.

# Coldsprings Jups Bonnie VHC - family

Bonnie was purchased privately while J was on a trip to the Wairarapa with the Putaruru Jersey Club. She was from an outstanding Type and Production family and produced some outstanding cows here including the noted Carnmor Bonds Beryl, prolific show champion including 1st 2-year-old World Conference Show. Unfortunately due to a lack of heifer calves this family has dwindled.

## Tolgarth Peerless Cara – family

Cara was purchased by my father in 1948. In 1964 he gave me three cows from this family, Thornwood Caramia who classified Excellent (when cows had to be 10 years old and qualify on production) and left a good family, her sister Thornwood Catherine who only left bulls, and Thornwood Kiss who started a handy family but then faded out. One heifer, Carnmor Bonds Karli was sold to Malcolm Ellis and founded a "contract" family in the Hillstar herd. This family is now in the Thornwood herd of Shaun and Michelle Good and has provided numerous bulls to AB companies including Thornwood Degree Keystone BW287.

In the latest Jersey NZ Production Register (2018/19) there were 145 Carnmor bred cows milked in outside herds.

66 had PW's above 175 (Carnmor average), top PW was 433. Many had also earned Excellent and VG awards. Proof of the shifting ability of Carnmor cattle.

Carnmor Herd Indices BW 165/51, PW 178/70, RA 100%.

# Hillstar Murm Starlet VG4 - family

Hillstar Murm Starlet VG4 is a maternal sister to the dam of LJC Premier Sire Hillstar Terrific 5 Star. While she has not had much luck here her value lies with the family she could start.

**HILLSTAR JONO'S STARLET EX4**  
**BW 126, PW 225.**  
 Maternal sister to Lot 123.

## Cashmere Neros Lucy – family

Lucy was purchased as a 3-year-old at the Cashmere October dispersal sale. Her first daughter sold at that sale went to the Maple Farm Stud where she was top producer on a couple of occasions. Two of her daughters also topped our herd. Two noted show champions have been bred from heifers sold from this family at our previous sales: Ferdon BStone Rose EX and Glenella Hired Lorna EX. These two were Champion and Reserve Champion All Breeds at the 2017 NZ Dairy Event, plus winning many other championships.

**FERDON BSTONE ROSE EX4**

(Lencrest Blackstone ex Carnmor Freds Rosie EX)

Outstanding type and production cow, winner of numerous championships.

**GLENALLA HIRED LORNA EX3**

(S V Jade Hired Gun ex Carnmor North Lace EX)

Supreme Champion Jersey at NZDE 2017 and winner of numerous other prestigious awards.

**CARNMOR THOR'S LAVINA EX4 8-8**

BW 233, PW 401.

Member of the Jersey Classic On-Farm Show Team.  
Dam of Lot 229. Sells as Lot 128.

**CARNMOR GOLD LEATRICE EX4**

- Report any accident to the site office
- If you see anything unsafe, report it to the site office

The auctioneer has overall control of this site, and will ask you to leave if the above rules are not followed.

## Cashmere Gold Wendy EXC – family

My mother purchased Wendy at the Cashmere dispersal. She was a top show cow and also a good producer. This family has performed exceptionally well here, with several heifers sold and going on to be top producers and show champions.

**HILLSTAR MANZELLOS TRUDY EX2**  
 BW 233, PW 441  
 Grandam of Lot 170

This is an outstanding heifer in every way. She was contracted to LIC this season but due to a mix-up the wrong semen was used. Her dam has also been contracted to LIC. She unfortunately returned at 100 days and will be carried over and sold next year. She is a maternal sister to Thornwood Degree Trigger BW 314 and the highest udder BV bull on the RAS list. He has just been selected for Premier Sires. Also maternal sister to Thornwood OLM Thor BW 271 who was in the LIC Genomic Team. Tanzi won the Te Awamutu Classic 3-year-old judged on type, production and index.
