HAMILTON AND BRANCHES

Andrew Reyland 027 223 7092

Vendor's Foreword

The herd was founded in 1954 by Lloyd's father. Around 1970 Lloyd took over the running of the herd. One of the first cows bought was at the Dairylea Dispersal in 1954 called Dairylea Sunbeam. She was the result of two full brothers in a row. From then on the rest is history as they say. The Sun family was started and every descendant has been a top dairy cow. Only one has been sold and that was Linal Expose Sun, Ex - her dam was sold in-calf to Northern Exposure. When the Linal herd was purchased Expose Sun came home and got in calf to Valerian. That's when Tony Luckin visited and went back to Taranaki with her. The bull calf was Leithlea Sun of A Gun. A really good family has been established by Expose Sun. Leithlea Gannon Sun is one such cow of note.

In the late 1960's I came across the Primley herd. Twenty-five heifers were bought over five years. They were all great cows, all of them producing and classifying well above average and continued to breed on.

In a response to find bulls that meet our standards for production and conformation, we decided to bring in overseas bulls. The response was immediate, with bulls like Duncan Lester and Duncan Hermitage. We then used nephew over aunt breeding with Berretta Fabulous and Midnight Storm. (Lester is Fabulous dam and Storm is out of Duncan's greatest daughter in Midnight Blue plus Duncan blood now on the female line from Lester and Hermitage.) Then the out-cross with Northern Exposure – whose daughters have bred exceptionally well. We have now gone back to more Duncan blood on the bottom line while waiting for the next out-cross

While out-cross is important now and again, it covers up bad genes until no progress is made. Close breeding does the opposite and exposes the bad genes, that's when you know which cows need culling.

In 2000 we had the opportunity to buy 70 cows from the Chevella herd of Don and Christine Macdonald. Many of these cows were from the American embryo's that Don had purchased. The result of those embryo's proved very good, especially the Kava's, Lester Desire's and the Rae's. They continue to breed on today.

The herd has won many production prizes and certificates over the years. We won Champion Jersey Cow at NZDE with Denson Dale Fabs Maggie EX, won Intermediate Champion Cow at NZDE with Tahora On Time Meg who was Fab Maggie's granddaughter, Semex competitions, both team and individuals, have bred over 1000 Ex4 and have always done very well in 'on-farm' shows over the years.

I have traveled to over 60 countries, always visiting herds of note. Over 150 herds. I have visited Australia 45 times to Dairy week and while there visited approx. 15 herds each year. I now go with a group of four or five breeders so we can keep up to date to see what is happening.

That's how we breed our cows.

We wish all purchasers much success and know if you treat them as top cows should be, they will in return treat you well.

Anne & Lloyd Wilson

Auctioneer's Foreword

The Complete Dispersal of the very well known Denson Dale herd and replacements offer breeders and Jersey farmers the opportunity to purchase from undoubtedly one of the best Jersey herds gracing pastures across Australasia.

From its beginnings in the 1950's, through to present day, emphasis has always been placed on cow families. Searching and finding these families has been an undertaking of no mean feat as Lloyd has searched for only the very best. The infusion of North American genetics over these closely bred, great conformation females has enhanced their stature and productive ability.

We can not stress enough the consistency of conformation and production achieved. Generation after generation of Excellent cows is no fluke, it has taken research and more research to use the correct genetics to achieve this. See the family history produced elsewhere in this catalogue.

Lloyd and Anne have toured the world and inspected Jersey herds in over 60 countries. After bringing the best genetics seen to Denson Dale the herd has reached the heady heights of consistency.

Those farmers of Jersey cows intending to be in for the long haul should consider purchasing at this once in a lifetime opportunity. Lloyd, with the support of Anne, has poured much in to the Jersey breed having served as a Director of Jersey NZ and received a Distinguished Member Award for his contribution.

Thanks to Lloyd and Anne on their contribution and congratulations on the lovely quality herd you have bred. We are sure the Denson Dale name will be seen in Jersey pedigrees for many years to come.

*Brian Robinson
for the Auctioneers*

COVID

While Covid rules have been relaxed to allow us to attend larger gatherings such as on farm auctions, all are asked to take care and respect our fellow attendees.

Hand wash will be available, you are asked to wear masks and observe social distancing.

Please keep each other safe.

Purchasers from outside the Waikato please help us by contacting your local carrier before coming to the sale. This will expedite and make delivery to you more economical.

Herd Facts

- The herd was originally established in Matamata, then was domiciled in Southland (traded as Winton Dairy Farm Limited) for several years where the cow numbers were increased (see adverts) and was then relocated back to Matamata.
- Herd is usually in the range of 260 –280 cows.
- Heifers and calves are all run on the home farm.
- All animals have been DNA profiled for at least 20 years making for ease of DNA profiling calves.
- Herd has averaged up to 515kgs ms/cow, 5800 litres milk and peaked at 23 lites.
- Herd averages consistently range in the 460-500kgs ms/cow range.
- 73 first calvers last season averaged 430kg ms/cow.
- Regularly do 1000–1100kg ms/ha with all young stock run at home.
- Cell count is rarely over 100,000.
- All cows with cell counts over 150,000 are treated at drying off.
- Cows are usually dried off 10th - 15th May.
- 1kg of feed is fed in the milking shed at each milking.
- March 2022 herd test results. These figures are included on each 3 GP –
16 litres/cow, 1.52kgs ms, 5.2% fat, 4.0% protein, Cell count average 88.
- Bull with identification VHY 19-10 ran with the carryover cows after AB from 28/10/21 until 10/12/21. VHY 20-4 was pastured with the herd from the 31/12/21 until 7/1/22 and VHY 19-3 was run with the herd from 10/12/21 until 30/12/21.
All bulls are DNA profiled.
- As our cow families are closely bred with consistent production and conformation we have great confidence in using our home-bred sires. Strength of female families allows this.
- In fairness to the new sharemilkers we ask that purchasers arrange delivery of their purchases as soon as possible to allow for us to build feed for the new sharemilkers.

bidr REGISTRATION

This sale will be hosted by bidr® (www.bidr.co.nz) as a hybrid auction, with online bidding and a live-stream available on sale day as well as the normal on farm format. All intending ONLINE purchasers must register on bidr® in advance of the sale date, by visiting the website and using the "sign up" button, adding their contact information and nominating the agency they would like to purchase through and account held with that agency. Alternatively, purchasers can organise an agent from one of the agencies listed on bidr® to buy on their behalf. The bidr® team is always available to help purchasers get signed up and registered, and the HelpDesk is proudly managed in-house from the Waikato. Please call 0800 10 BIDR (0800 862437), or email enquiries@bidr.co.nz for assistance at any point. Alternatively, contact your local bidr® representative:

National, Lower NI: Caitlin Rokela (027 405 6156) | Upper NI: Jess Davies (027 367 2837)
Upper SI: Bianca Murch (027 732 0006) | Lower SI: Sam Murphy (027 243 2736)

Purchasers Please Note:

Please make sure you know or have your **NAIT** numbers, **LIC PTPT** and **Herd Codes** available.

Conditions of Sale

All animals are sold subject to the New Zealand Stock and Station Agents Condition of Sale as posted. In addition the following special conditions apply to this sale where applicable:

FEMALE GUARANTEES:

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer.

This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.

3. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale.
4. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Cows sold as not in-calf at the time of sale, shall be sold with a guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the cow fail to produce a calf by the 31 December 2022, the seller shall refund in full the purchase price direct to the buyer.
6. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2022, the seller shall refund in full the purchase price direct to the buyer.
7. Where females are sold as not in calf (including yearlings or calves), are flushed for embryo transfer, either with or without success, all guarantees become null and void.
8. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
9. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
10. Any claim to the auctioneers must be accompanied by a veterinary certificate.

GENERAL CONDITIONS:

DELIVERY: Each lot shall, immediately on the fall of the hammer, be at the risk of the buyer.

INSURANCE: If transit or annual insurance is required, such cover can be arranged through the auctioneers.

INSTRUCTIONS: Buyers must sign dockets before leaving the sale and leave full delivery instructions.

TRANSFERS: Sellers are responsible for the completion of transfers. No buyers shall be entitled to withhold payments for stock pending delivery by the seller of the relevant breed society transfer certificate or LIC Animal Location Transfer Certificate.

bidr REGISTRATION

bidr REGISTRATION

All intending on-line purchasers will need to register with bidr prior to sale day to enable you to participate in the bidding.

It is recommended you go on-line to view an earlier sale to see how the process works.

You may still wish to register to be able to witness the bidding on line.

Register on line at:

bidr

or

PGG Wrightson

or phone bidr on

0800 862 437

for registration assistance

Andrew Reyland – Ph 0272 237 092

If you have purchased via bidr

all purchasers must fill in a Transport/Delivery/Transfer Instruction Sheet and email to:

Andrew Reyland – areyland@pggwrightson.co.nz

or

Brian Robinson – b.robinson1@extra.co.nz

at the end of sale day.

See form at rear of catalogue ...

Big Hollow Coral / Clara Family

I bought into this family at the 1979 'Kakariki' dispersal sale with the purchase of Big Hollow Jovial Coral, Ex. We then mated her to Grandeur Dreaming Sam. The result was Denson Dale Sam's Coral, VHC. The rest as they say is history.

There is also the Clara branch in the herd —

Big Hollow Royal Clara VHC

Big Hollow Cynthia VHC.

Big Hollow Choice Coral VHC

Big Hollow Blue Coral VHC

Big Hollow Jovial Coral EX

Denson Dale Sam's Coral VHC

Dam of Lots 69, 70 and 71. Grandam of Lot 72.

Primley Victress Family

We first bought into this family in the late 1960's. It first started to become prominent in the 1920's after some very close breeding, ending up in the 'Waitataura' herd in Te Kuiti for W. Andrews for 30 years. Then onto his nephew Ron Andrew's of 'Primley' fame in Kaitaia.

It has continued to breed true to its background and over the years different branches have sprung up such as the Vision's and the Vida's which have all played a big part of the Denson Dale herd.

ON FARM SHOW –2020

AWARDED TO

Lloyd & Ann Wilson

CLASS 1 — 2 YEAR OLD COW IN MILK

1ST PRIZE

Denson Dale Viral Vessy – 93 points

Primley Jewess Family

I purchased Primley Jewess VHC about 1970. This family has two branches, the Olives and the Pearls here, both as good as each other. I have researched back to the 1920's where it was always at the head of the class, but interesting to note that it started in the famous NZ herd in the 1920's, the 'Maori' herd in Lepperton, Taranaki. Then ended up in the Tui Glen herd in Kaitaia for a few years before going to the Primley herd north of Kaitaia.

Primley Princess EX,
Primley Jewess VHC
Denson Dale Jewel VHC
Denson Dale Red Jewess VHC
Denson Dale Opal VHC

Denson Dale Jingo's Pearl EX5,
Denson Dale Lester Pearl EX4
Denson Dale Fabs Pearl EX4
Denson Dale Expose Pearl EX4
Denson Dale Tbone Pearl EX4
Denson Dale Vulcan Pearl EX4 and Denson Dale Valen Pearl Exc

From Opal also come the Olives

Denson Dale Opal VHC
Denson Dale Jingo's Olive Ex6
Denson Dale G.T. Olive EX3
Denson Dale K.P. Olive VHC
Denson Dale Lem Olive EX4
Denson Dale Van Olive EX4, twin to
Denson Dale Van Olivia EX4,
Denson Dale Markus Olivia Exc

DENSON DALE

**THE HERD THAT DOES THINGS
DIFFERENTLY**

Denson Dale Alf Rosena. EX4
(Rosena's Family)

Charob Lem Kay. EX4
(Kava Family)

Denson Dale Expose Vision. EX4
(Victress Family)

Denson Dale Jace Vida. EX4
(Victress Family)

We have always made our own breeding decisions over the years, with cow families always being a priority.

On the left are the dams of our bulls that have been used to further upgrade our cow families, with pleasing results.

HERD PRODUCTION:

Around 430kg's of M/S's each year.
Grass only + 2kg of meal daily.

The herd at present consists of:
(4yrs and over) - 128 EX4, 19 VG4.
(2 & 3yrs) - 60 EX2, 31 VG2.

Denson Dale has bred over 800 EX4 to date.

We enjoy the breeding and farming of our herd and meeting many overseas visitors that come to our farm.

DAMS AND A GREAT GRANDAM OF SALE IN-CALF HEIFERS

DENSON DALE VULCAN PEARL EX4
Dam of Lot 174.

DENSON DALE LESTERS VISION EX7
Great grandam of Lots 176 and 177.

DENSON DALE VIRAL VESSY 87VG
Dam of Lot 189.

DENSON DALE VERNS BRIANA EX4
Dam of Lot 195.

DENSON DALE EXPOSE VIDA EX5
Dam of Lot 179.

OSH

Every effort will be taken by the Vendors, Auctioneers, their staff and assistants, both on the day of the sale as well as on any other visits of inspection to ensure the safety of intending buyers and visitors.

However we wish to advise that this is a farm run under normal management conditions and certain dangers exist in relation to livestock and their environment.

Visitors should take all care to ensure their personal safety.

DISCLAIMER:

All details and descriptions as to stock referred to in this catalogue or otherwise provided by the auctioneers ("sales information") have been supplied by the Seller and have not been independently verified by 'The Auctioneers'. 'The Auctioneers' and their employees make no representations or warranties or acknowledgement of any kind whatsoever in relation to any part of the sales information (including, but not limited to the accuracy or completeness of details and descriptions of stock and other contents).

Buyers, advisers and all other persons viewing or dealing with the stock must make their own assessment and judgment on the stock and sales information.

'The Auctioneers' are not responsible or liable in any way whatsoever, whether in contract, tort (including negligence), or otherwise, to any person for any loss or damage whatsoever arising directly or indirectly from any information or representation included in or omitted from.

ATTENTION:

Under the Health and Safety in Employment Act 1992, we wish to bring to your attention your responsibilities while attending this on-farm sale. You are in a multi-hazard area and are requested to observe the following rules:

- All children under the age of 16 must be accompanied and under the supervision of an adult
- You are not to enter any yards, pens or races where stock are being moved or held
- Keep to the walkways or within the flagged areas provided
- Report any accident to the site office
- If you see anything unsafe, report it to the site office

The auctioneer has overall control of this site, and will ask you to leave if the above rules are not followed.

DENSON DALE

Est. 1952

The home of strong powerful dairy cows that have the ability to produce and last with no broken down udders, under NZ's grassland farming. The underneath cows, from the "KAVA" family from America, show that 'dairy strength' that is so essential in New Zealand dairy cows.

CHAROB LEM KAY EX4

CHAROB LEM KATHERIN EX4

Denson Dale
JACE KAYLEY ET & JACE DEHUNAIR ET

FULL SISTERS FROM CHAROB LEM KAY

DENSON DALE JACE KAYLEY ET

CHAROB LEM KAZOO ET EX4

These are many daughters and grand-daughters from these cows that are the same. Cows with dairy strength that last and produce under New Zealand's grassland conditions.

We are pleased with our 'Vanhalem' (Aust) daughters that are milking. They are strong, have great udders with high production & fertility.

We are also excited with our 'Valentino' (USA) daughters that are just as good as the daughters that we saw in South Africa, Ireland, Scotland, England and Australia.

Denson Dale

THE 'PROTEIN' HERD

Where Cow Families, Production, Longevity and Excellence reside

We welcome the World Jersey conference delegates to New Zealand
and to our farm in February.

DENSON DALE LESTERS VISION EX7

Lifetime production average
5351 lts milk; 4.45% Prot; 238kgs Prot;
6% Fat, 321kgs Milkfat, 559kgs Milksolids
in 305 days.

Lester Vision's photo was taken in April
2010 at 17 years & 8 months with her
doing what she likes to do best ...
working and paying her way.

- New Zealand's top producing herd of over 300 cows for the last 10 years.
- The herd has made full use of the World's leading genetics over the last 25 years.
- Bred the Champion Cow at the 200g New Zealand Dairy Event.

DENSON DALE EXPOSE VISION EX4

Granddaughter of
Denson Dale Lesters Vision EX7

Production = 676lts, 4.36% P, 295 kgs
Protein, 5.72% F, 387 Fat in 293 days at 5
years - 682kgs m/s at 5 years.

Twice a member of the winning Semex
National Jersey On-Farm Challenge and
also the top pointed cow.

PRODUCTION LAST 2 YEARS - Grassland farming

307,153kgs m/s 620 cows

306,800kgs m/s 640 cows

This year ... budget says 330,000kgs m/s 680 cows

Dairy Genetics sales conducted in all parts of New Zealand by our expert staff. A special feature is made of selecting and purchasing for clients at either auction sales or by private treaty.
