Auctioneers Foreword

Welcome to the 6th Annual Lynrich Bull Sale.

Every year the catalogue of bulls improves exponentially, most particularly in quality.

The Lansdaal family continues to receive reports of satisfaction relating to bull conformation, size, condition and temperament.

Buyers being able to designate bull delivery dates is also a great advantage.

No expense or energy has been spared in presentation and we look forward to welcoming new and returning buyers as we know they will receive value and satisfaction.

Link Livestock Ltd

Lynrich Foreword

Welcome to our 6th annual Lynrich jersey bull sale.

Another year another Lynrich Jersey Bull Sale. We are always proud of the bulls we breed and rear and we think we have done a decent job considering the difficult weather challenges this season has brought us. A long dry summer and a very wet winter. The bulls on offer this year have had good weight gains throughout the year and have continued to grow into nice looking mature bulls. Selling this year are 10 R2 bulls followed by 60 elite R1 bulls sold through Link Livestock. Following that will be 140 R1 bulls sold by New Zealand Farmers Livestock.

We hope there is a bull for everyone. This year we have a bit of everything. A few outcross bulls, a few ex contract mated bulls from LIC, CRV and Jersey Genome, ones with excellent classification dams, high producing family lines, good BWs. We are confident you will find something you like among the bulls we have for sale.

Our breeding programme going forward is focusing on fertility, stature, capacity and the udder traits. We take the time to select each cow a bull that will hopefully correct one of her lower BVs while also not inbreeding which can prove quite tricky in the Jersey field, so that is when the Danish sires came in handy to put some different genetics into our gene pool. We are excited to see how the females perform in our herd next season.

We are a family owned and run operation with all hands-on deck. With Richard and Christine steering the ship. Megan has recently taken on a contract milking position on the home dairy farm, Natalie currently working for Ag Research and calf rearing on the home farm. Simon and Nicole continue to manage this dry stock block. We have recently developed a new calf rearing shed here at 200 'Luck At Last' with the end goal to be rearing the bulls here from five days old.

We really do take pride in ourselves on breeding and growing quality livestock and hope that you can see this in the bulls available today. The bulls get handled regularly and calmly and this is reflected in their temperament. All bulls sold today are double vaccinated for Lepto and BVD vaccinated, and TB tested. They are from a closed herd with own stock truck so you can buy with confidence.

Hope to see you at our sale.

The Lansdaal family

ALL BULLS

All Bulls are: Bred/Reared/Grazed on our own properties, TB Tested (C10, EBL Free), BVD tested negative and double vaccinated, Lepto vaccinated.

DISCLAIMER:

The information printed in this catalogue is derived from data supplied by the vendors and stored in the National database. Although every care has been taken to ensure accuracy in the production of this catalogue, the vendors, the vendors' agents, the Auctioneers or its agents, LIC, its subsidiary or its agents who collect, process or publish the information supplied; and the printer do not take any responsibility or liability for any errors, omissions or misstatements contained herein.

OSH:

Every effort will be taken by the Vendors, Auctioneers, their staff and assistants, both on the day of the sale as well as on any other visits of inspection to ensure the safety of intending buyers and visitors. However, we wish to advise that this is a farm run under normal management conditions and certain dangers exist in relation to livestock and their environment. Visitors should take all care to ensure their personal safety and children must be supervised at all times.

CONDITIONS OF SALE

FEMALE GUARANTEE: Every female shown as bred on a certain date, except any which may have been served within six weeks of the sale, is guaranteed in-calf. Every female where shown as pastured with a bull is guaranteed in-calf. This guarantee expires five weeks from day of sale.

Where this catalogue specifies an expected calving date (other than a pastured with bull expected calving date), and that date later proves to be completely inaccurate, the Vendor shall refund 25% of the purchase price direct to the Purchaser. As a basis of arbitration a period of fourteen days either side of specified calving date shall constitute the maximum tolerance allowed for calving. The 25% refund shall not apply where pastured with bull details and dates are printed in this catalogue, unless it is specifically stated that the specified calving date guarantee is to apply.

The foregoing conditions shall apply only after the following guarantees:

1. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the Vendor subject always to liability under other clauses contained in the Conditions of Sale and the Special Conditions of Sale. The purchaser has the right to retest at his or her own expense before delivery is made from the place of sale.
2. Where a female is offered for sale as being in-calf, without a supporting Veterinary Certificate and the female is subsequently proved to be empty the Purchaser has the right to return the female to the Vendor or carry out such disposal as the Vendor may instruct and the Vendor will refund to the Purchaser the purchase price plus the transport costs only.
3. Mummified Calf: Where any female sold as being in calf proves to be carrying a mummified calf, no responsibility is to be born by the Vendor.
4. Yearling Heifer Guarantee:
 - a) Yearling Heifers sold as unmated, are sold with the guarantee to breed. The term to breed shall constitute to produce a calf, dead or alive. Should the heifer fail to produce a calf by 31 December 2023, the Vendor shall refund in full the purchase price.
 - b) Where a yearling heifer is sold as unmated, this constitutes a guarantee that the heifer is not in-calf as at the date of sale.
 - c) The use of MOET or IVP reproductive techniques on a female after purchase completely negates the breeding warranty.
5. Any complaint to the Auctioneers must be accompanied by a Veterinary Certificate; word of mouth will not be sufficient proof.

MALE GUARANTEE: The entry of any bull in this catalogue constitutes a guarantee by the seller that the purchase price without interest, expenses, costs or damages shall be refunded if notice of fertility or failure to breed is accompanied by a veterinary certificate and MUST be in the hands of the vendor within four months of delivery. Where a bull is not a breeder the purchase price without expenses will be refunded. The cost of taking delivery and returning the bull to the seller is to be borne by the buyer.

DELIVERY: All purchases, as is customary, will be at BUYER'S RISK FROM FALL OF THE HAMMER.

PRICING: All animals are sold in NZ dollars exclusive of GST, unless otherwise stated.

ONLINE PURCHASING: You should only place a bid if you intend to buy the animal on offer at the price entered. If you place the winning bid where an Agency has agreed to accept the charges for any purchases made by a user in an Auction, charging will be applied to that agency for all lots purchased by the user in that Auction.

INSURANCE: If Transit or Annual Insurance is required, such cover can be arranged through the Auctioneers on application.

INSTRUCTIONS: Purchasers are asked to sign dockets before leaving the sale and to leave full and explicit transport instructions.

TRANSFERS: Vendors are responsible for completion of all transfers. No purchaser shall be entitled to withhold payment for pedigree stock pending execution of delivery by the Vendor of the transfer of the same, registrable in the Stud Book.

COMMISSIONS: If it is not possible to be present, the Company's Livestock Agents who are thoroughly conversant with the offering will be glad to make selections or bid on specified lots according to instructions.

TERMS: Payment by 10 days following date of sale.

OTHER CONDITIONS: The sale is also subject to the general conditions of sale displayed at the sale.

This bull is a result of an LIC contract mating the dam is still being contracted. Her yearling bull is also here for sale selling as Lot 20.
Nice tidy family with good production behind them

Don't let the sire of this bull scare you off it's a home bred bull with good PWs behind him, 504 has a great BW, High fertility, good UO & DC BVs. The dam is also now contract mated with CRV. The dam of the sire also has contract mated daughters. This bulls is a mix of two of our favourite cow families.

An exceptional dam we lost due to eczema, so gutted. This was her last calf, he has got all the right traits to leave tidy, good producing daughters on the ground.

The grandam of this bull is one of top PW cows with a PW of 730. She's a big strong cow with a lot of stature & capacity. The home bread sire back in the great grandsire worked out well for us.

This bull is the result of a LIC contract mating, his half brother Trance was purchased by LIC but he didn't produce quick enough so didn't make it any further. We were lucky enough to get this girl from the Camp clearing sale the last cow that was brought into our herd. Dam is still contract mated.

The information on this report is as recorded on the LIC MINDA database as at date of print, and LIC does not warrant the accuracy of the information provided

The highest BW bull in the sale. From a good family of KX cows who I finally have crossed to Jersey. The dam is being chased by LIC for contract mating but they want to mate her to KX and I want Jersey calves so this is not a contract calf. Good production, good BVs (UO .68) , good BW this bull is looking pretty good!

The great grandam was contract mated for many years, produced a bull in the LIC team years ago too. The dam of this cow is a permanent 3 titter hence the bad classification but still does the production. She's actually a really tidy cow such a shame about her 1/4.
