Auctioneer's Foreword

Welcome to the 100th National Jersey Bull sale 2023.

How times have changed in farming practices today since the heady days of Jersey being the main breed of dairy cow across the "Dominion" of New Zealand. In reading and viewing publications of the 1930's such as the "Dairy Exporter" the National and Combined Breeder's Bull Sales were huge occasions on the sale calendars for breeders and dairymen alike. A large percentage of dairy farmers were members of breed societies and the bull sales and annual sales that offered large numbers of yearling bulls mostly, were meeting places for breeders and prospective purchasers.

Bulls were tethered well prior to the bull sales which comprised shows and sales over two or three days. At sale time bulls were shown in the outside rings and often the championship winning bulls were the better selling lots irrespective of their breeding. Sales like this continued well into the 1970's-90's until the breed makeup and number of bulls dwindled substantially. Jerseys became less of the national herd and AB, which started in the 1950's through the LIC, took on a larger part in the breeding programmes.

In reading the 'Dairy Exporter' of many years ago, summary of the sales, prices, purchasers, vendors and photos were a big part of the publications during August, September, October of each year. Interesting to note that purchasers came from the far north to most other regions of the North Island including the East Coast, Hawke's Bay and Taihape now recognised as sheep farming regions, though you do see old unused cowsheds and dairy factories in what we think to be obscure places still today. Many vendors' names are also recognisable as farming families of today.

From the days of 200-300 bulls being offered to today where 50 is a large sale the Jersey breed unfortunately has taken a back seat. Jersey is not fully recognised for its contribution to cross-breeding in today's herd but many dairymen purchase Jersey bulls to mate to heifers of all breeds because of their calving ease.

The art of breeding dairy cattle has changed from backing your judgement to breeding by numbers for the majority. In this year's catalogue are bulls from outstanding cow families that have been around for many generations with high production and outstanding conformation. These are the families to secure your herd sires from.

Congratulations and thanks to all past vendors, without your support over the preceding 99 years this sale would not have been the success it has been. Several of this year's vendors are several generations removed from forebears who supported this same sale in its formative years.

Front Cover references: TOP RIGHT: **Ivondale McAlister**, four-year-old son of the world's champion Jersey, Woodland Felicie, sold at the 1936 National by Mr W. T. Dale (Te Aroha) for 300 guineas. A bull of great type and constitution rich with the blood of record-breakers, he was keenly sought after by buyers.

BOTTOM RIGHT: **Sybil's Volunteer**, grand champion at the National 1936. A bid of 175 gns at auction was refused by his owner, Mr J. S. Jones (Bell Block), and he was later sold privately to Mr Fred Phillips (Otorohanga).

TOP LEFT: **Santa Rosa Prince**. Mr J. A. Mitchell's two-year-old bull, sold at the National (1936) to Mr J. Rae (Taneatua) for 135 gns. He is by Brampton Coy Volunteer (imp.) from Viola's Queen Bess VHC, C.O.R. 658lbs at three years 282 days.

BOTTOM LEFT: **Waipiko Coronado**, the only bull offered by Mr C.G.C. Dermer, at the National (1936). He was sold to Mr J. Bartosh (Taihape) for 135 gns. By Waipiko Acme, from Waipiko Cacasika, he carries record-breaking blood in every line of his pedigree. His sire is a son of Holly Oak Annie, VHC.

100th NATIONAL JERSEY BULL SALE

to be held at

TE AWAMUTU SALEYARDS SELLING COMPLEX
PATERANGI ROAD, TE AWAMUTU

In Conjunction with 

Thursday 21st September 2023

Sale commences 11.30 am sharp

Outstanding offering of High Genetically Bred Sires comprising -

33	Yearling Bulls
<u>19</u>	2 Year Bulls
52	Head

Plus over 300 straws of semen to be sold at end of sale.

Dam best record to 734kgs milk solids.

BW's up to 477, with 16 bulls over 400BW.

All Bulls meet TB requirements.

All Bulls have been BVD tested negative/vaccinated.

All Bulls are tagged per NAIT requirements.

All bulls sold subject to the NZ Stock and Station Agents Conditions of Sale as posted in the Sales Pavilion.

EVERY BULL A GUARANTEED BREEDER: The entry of any bull in this catalogue constitutes a guarantee by the Vendor that the purchase price without interest expenses, costs or damages shall be refunded if a bull proves totally infertile of service. If any bull entered does not possess a reasonable fertility, although not totally infertile, any dispute shall be settled by an arbitrator appointed by the Auctioneers.

Any complaint must be lodged with the Auctioneers by the 31st December 2023. The costs of taking delivery of and returning the bull to the vendor to be borne by the Purchaser. A Veterinary surgeon's Certificate shall be produced by the Purchaser when required the costs thereof to be borne by the Purchaser.

DELIVERY: All purchases, as is customary, will be at BUYERS RISK FROM FALL OF THE HAMMER.

INSURANCE: If Transit, or Annual Insurance is required, such cover can be arranged through the Auctioneers on application.

INSTRUCTIONS: Purchasers are asked to sign dockets before leaving the sale and to leave full and explicit transport instruction.

TRANSFERS: Vendors are responsible for completion of transfers. No purchaser shall be entitled to withhold payment for pedigree stock pending execution of delivery by the vendor of the same.

COMMISSIONS: If it is not possible to be present, the Company's Stud Stock specialists who are thoroughly conversant with the offering, will be glad to make selections upon specified lots according to instructions.

CATTLE FOR EXPORT: All pedigree Stock sold for export are to be inspected by Official inspectors of the Breed Society concerned prior to Export Certificates being granted for such stock.

NOTE: The Vendors assume responsibility for the customary 15% commission chargeable on all stock sold for export.

Auctioneers:

Andrew Reyland – Ph 027 223 7092
Jamie Cunningham – Ph 027 583 3533

This sale will be hosted by bidr® (bidr.co.nz) as a HYBRID SALE-YARD auction, with online bidding and a live-stream available for online purchasers.

All intending online purchasers must register with bidr® using an account held with one of the bidr® partner agencies in advance of the sale date.

The bidr® team is available to assist intending purchasers with signing up and registering - please call 0800 TO BIDR (0800 86 2437), or email enquiries@bidr.co.nz for assistance at any point.

Alternatively, contact your local bidr® representative:

SALES COORDINATOR

Olivia Manley
027 348 6354

All bulls which are sons of LIC bulls are sold on condition semen is not collected from these animals and that the purchaser will comply with clause 62 of LIC's service rules.

LIC approves the use of the bulls for natural mating.

If the purchaser does wish to use the bull for commercial AB collection, an agreement must first be reached with the General Manager of Genetics at LIC.

NAIT

All purchasers must supply their NAIT numbers at the time of registering to purchase.

DISCLAIMER:

All details and descriptions as to stock referred to in this catalogue or otherwise provided by the auctioneers ("sales information") have been supplied by the Seller and have not been independently verified by 'The Auctioneers'. 'The Auctioneers' and their employees make no representations or warranties or acknowledgement of any kind whatsoever in relation to any part of the sales information (including, but not limited to the accuracy or completeness of details and descriptions of stock and other contents).

Buyers, advisers and all other persons viewing or dealing with the stock must make their own assessment and judgment on the stock and sales information.

'The Auctioneers' are not responsible or liable in any way whatsoever, whether in contract, tort (including negligence), or otherwise, to any person for any loss or damage whatsoever arising directly or indirectly from any information or representation included in or omitted from.

ATTENTION:

Under the Health and Safety in Employment Act 1992, we wish to bring to your attention your responsibilities while attending this on-farm sale. You are in a multi-hazard area and are requested to observe the following rules:

- All children under the age of 16 must be accompanied and under the supervision of an adult
- You are not to enter any yards, pens or races where stock are being moved or held
- Keep to the walkways or within the flagged areas provided
- Report any accident to the site office
- If you see anything unsafe, report it to the site office

The auctioneer has overall control of this site, and will ask you to leave if the above rules are not followed.

OSH

Every effort will be taken by the Vendors, Auctioneers, their staff and assistants, both on the day of the sale as well as on any other visits of inspection to ensure the safety of intending buyers and visitors.

However we wish to advise that this is a saleyards run under normal management conditions and certain dangers exist in relation to livestock and their environment.

Visitors should take all care to ensure their personal safety.

Farm smarter.

Congratulations to the PGG Wrightson team and dedicated Jersey Breeders on the 100th Annual National Jersey Bull Sale

Jerseys are the most profitable and sustainable breed under NZ's pastoral farming conditions, but there is now no one outside of Jerseydom who will promote their material advantages.

To better promote the indisputable advantages of the Jersey breed, Jersey Advantage is:

- Interfacing with DairyNZ, NZAEL and related entities.
- Engaging with Fonterra and all relevant processors to ensure fair and accurate milk and meat payments.
- Interfacing with MPI on matters of relevancy vs perception.
- Being proactive in the accuracy and evolution of genetic indices.
- Prepared to process and market its own product if this adds value for Jersey farmers.
- Prepared to run its own genetic improvement programs.
- Working to ensure that there is adequate funding to maintain our work program.

Jerseys have a material advantage in required replacement rate, better fertility, better feet, legs and better mobility, less calving difficulty, mastitis and collapsed udders. The required replacement rate for a Jersey herd is 4-5% lower than Holstein Friesian. This is pertinent when considering the price of rearing a replacement animal has increased by >50% in the last 10 years while the value of a MA cow has remained relatively static.

Jerseys, thanks to a dedicated group of high BW bull breeders, have kept up the rate of genetic gain vs other breeds. Unfortunately, now we see little reward or incentive as breed companies reduce Jersey bull intakes and increase Kiwi Cross. Both LIC and CRV see the cow of the future being a Kiwi Cross animal and parent breeds playing less of a role in bull selection. Recent semen sales data shows Jersey is 13.7% of total sales with only 41% of these straws going to Jersey cows.

The Jersey Breed is in trouble – it should not be!

Support us by donating!

Jersey Advantage is funded by farmers and relies on the generous donations of those passionate about the success and longevity of the breed. We'd like to raise some operational funds by asking farmers and supporters to offer the proceeds from the sale of an R1 or R2 bull sold. Funds raised will go towards operational expenses, ongoing breed promotion and industry advocacy work. If you would like to donate, please give us a call - Rachel (021 242 2883) or Louise (027 478 2007) or info@jerseyadvantage.co.nz All the best for the bull sale season.

Is the cow you milk today, the type of cow you need for the future?

Jersey and Jersey Cross genetics deliver:

- Superior feed conversion efficiency
- More milk solids per kg of liveweight
- Higher fertility
- Greater calving ease
- Adaptability to OAD and a range of farming systems
- And the lowest environmental footprint at 12% more carbon efficient per kg/MS than Holstein Friesians

Only one breed delivers on all these traits. Try Jersey genetics this mating, for results that won't disappoint.

Visit www.jerseyadvantage.co.nz for more information.

From the family that has created much interest. Bulls from this family have gone into AB companies and the record priced cow at \$55,000 is from this female family.

A nice bull with a splash of broken colour. Pretty much the all-round bull – good BW, above average size BV, Good Fertility, Good UO, Good SCC. Outstanding Sire and a very good female bottom line which just produce and get in-calf year after year. As good as we can offer.

We believe Trident is a bull who has been under-used by the industry – he is a good all-round bull with no weaknesses and a notable +10/9 for Fertility and backed by two influential sires in Strider and Joskin. The dam of this yearling bull is a model of production consistency – look at her LWs.

A rich golden coloured young sire. One we were disappointed that was not picked up to go into CRV SPS, his maternal brother went into LIC via Jersey Genes programme this year. Impeccable pedigree, strong on BW, udder, Fertility and SCC.

A very smart bull with a strong outcross on the female line. He has been run with selected heifers the last two seasons. His dam is a mighty cow and won numerous show prizes as a younger cow. She is calving again at age 17 this season and is still running with the herd. She is the dam of Carnmor Stars Fantasy VG2 (7-8) who has produced very well in the Cinagro Stud. Carnmor Speedway Felicity EX4 398kg fat protein in the Goldwyn Stud and numerous other granddaughters that have performed very well in other herds.
