

JerseyGenome™ Breeder Nomination Form

Please list your female nominations below and take a wet tissue sample (using Tissue sampling units with liquid preservative to take an ear notch). Make sure you correspond each DNA sample using the barcode on the side of the unit for each female birth ID.

If your females(s) have been sampled through another company, we **DO** require a separate sample as information is currently not shared between different genotyping platforms.

TSU Barcode	Birth ID	Sex	Breed	Dam Birth ID	Sire AB Code

This form MUST accompany DNA samples in order to be processed. No form no processing

- We suggest you put the samples into a zip lock bag before using the envelope provided.
- Please **INCLUDE** the cardboard backing linking samples to the birth ID of the sampled female(s) as a double up in case this submission form becomes lost/damaged.
- Only refrigerate samples (do not freeze)
- Please send your DNA samples to
